# HAZMAT Awareness and Operations

Course Description: This course will provide Awareness and Operations level instruction and the basic skills to safely and effectively handle fire department operations involving the release of chemicals. Students will be expected to recognize the presence of the hazardous materials/WMD, protect themselves, call for trained personnel, and secure the area, as well as, protect nearby persons, the environment or property from the effects of the release. Students are trained to respond in a defensive fashion with containment being the main priority. The course is designed to meet the training responsibilities as outlined by OSHA, CFR 1910.120 and NFPA 472, 2013 Edition for the Awareness and Operations Level.
