Kit Location Track: Typical Reported Kit

Medical Facility

Medical Facility
Medical-Forensic Provider collects a Sexual Assault Kit as part of the exam with the survivor

Law Enforcement
Law Enforcement Officer picks up the kit from the medical facility and submits it to the Alaska State Crime Detection Laboratory.

Law Enforcement

Crime Lab
The Crime Lab conducts biological testing of samples in the kit and writes the report. Usually this is done by the Alaska State Crime Detection Laboratory, though sometimes kits are sent to private labs for analysis.

Crime Lab

Storage
After analysis, kits are permanently stored at the Alaska State Crime Detection Laboratory.
