Course Announcement: The Nozzle Forward

Course Number: F-1526

Dates & Time: June 10 – 11, 2015; 9:30 AM – 7:30 PM

Location: Anchorage Fire Training Center, 1140 Airport Hts. Dr., Anchorage, AK

Target Audience: Experienced Firefighters

COURSE DESCRIPTION:

The Nozzle Forward, an 18 hour physically intensive class is not simply a collection of techniques, but is instead a principal in mechanics that is reapplied in several ways, to create a simple effective, efficient system giving the nozzle-team greater mechanical advantage over their hand-lines.

In addition, it includes an aspect of fire attack based in years of experience coupled with the most up to date scientific studies. It helps nozzle teams deep inside structures — with limited perspective — to make quick choices by “reading” the behavior of the hostile environment. The skills taught in the Nozzle Forward are blue collar, practical skills that are an adaptable system for fire line management and fire attack.

Please follow the links below for more information of what to expect:
