Crime Lab Employee Named as Chair of International Board

(ANCHORAGE, Alaska) – Tomorrow, July 3, 2009, Scientist Lesley Hammer will take over as the Chair of Scientific Working Group on Shoeprint and Tire Tread Evidence (SWGTTREAD), an international guidelines and professional standards committee. Hammer has held a seat on the board since its establishment in 2004. Ten Forensic Scientists from across the world comprise SWGTTREAD.

SWGTTREAD was created by the Federal Bureau of Investigation to serve as a professional forum for forensic scientists to monitor and establish accepted practices and ethics in their designated fields of specialty.
