PROPOSED CHANGE:

13 AAC 50.035 Permit required.
(d)

(1) Exception: Class IB Special – no continuing education required in addition to the journeyman renewal requirements.

Legislative format, bold underline new language and bracket and capitalize deletions

EXPLANATION of why proposed changes should be made to the 2012 Code or A.A.C.:

If the IB Special license requires CEU's for its renewal, it is an additional burden to the licensed journeyman electricians, which already have to engage in continuing education for the journeyman's license renewal. Electricians already pay @\$200.00 every other year for their continuing education. It is redundant to require the IB-Special CEU's since the requirement for the IB-Special is to be an Alaska journeyman electrician.
