DPS Highlighting Winter Driving Safety

(ANCHORAGE, Alaska) – The Department of Public Safety is releasing a television and radio public service announcement encouraging drivers to abide by the speed limit. Road conditions in Alaska can vary day to day. The posted speed limit is the fastest drivers can safely travel on the roads under the best of circumstances. Driving at or below the posted speed limit is one thing that you can do to increase your chances of getting to your destination safely.

DPS will promote driving at safe speeds from April 2 - 13 by airing a PSA.

We can all help to make our roads a safer place by driving at safe speeds. To view the PSA, go to:
