You don't often get email from [jarred\\_mitrea@nps.gov](mailto:jarred_mitrea@nps.gov). [Learn why this is important](#)

I'm currently waiting for the instrument to warm up and get the tank installed. It was apparently in an unheated storage area and I wanted it to come up to room temp before getting it all hooked up. I'll get the other sent back probably tomorrow, is USPS an acceptable option or do you have a requirement for shipping?

Thank you! Were you able to get the new instrument in service?
