INTRODUCTION

This report includes statistics about criminal justice information, including:

- ...**the number and types of records** maintained by the state central repository;
- ...**the number and types of agencies** using the Alaska Public Safety Information Network (APSIN);
- ...**the volume and types of information** reported to and requested from the repository;
- ...**audits and training** completed to measure and improve record quality and system security; and
- ...the number of requests to review records for **possible errors and corrections made**.

By reporting on compliance with **state and federal criminal justice information laws**, the report is

intended to be useful for planning and evaluating record management resources. See Tables A and B for a partial listing of laws affecting the reporting, maintenance, and release of criminal justice information.

Alaska Statute Title 12, Chapter 62, Criminal Justice Information Systems Security and Privacy, is used as an outline for the report. For each section of AS 12.62 there is a brief summary of requirements, followed by any available statistical data.

This project was supported by a grant awarded by the Department of Public Safety, Division of Alaska State Troopers, with funding from the Bureau of Justice Assistance, Office of Justice Programs. With continued funding, the Division of Statewide Services will publish an updated report at the end of each fiscal year.

To demonstrate trends, most tables are designed to hold five years of data, where it is available. Explanatory notes ([a], [b], etc.) appear *at the end* of each table.

AS 12.62.110. CENTRAL REPOSITORY RESPONSIBILITIES

DPS' Division of Statewide Services operates the state central repository of criminal justice information.

The **Information Systems Section** is responsible for

- ⇒ **APSIN**, the Alaska Public Safety Information Network, an on-line, real time data processing system containing over **12 million records**, with approximately **2,800 computer programs** supporting over **100 on-line functions**, operating **24 hours/day**, for over **3,300 authorized users** employed by local, state, and federal criminal justice agencies;
- ⇒ **CJIS Systems Agency** (CSA, formerly Control Terminal Agency) duties for network communications and links with the FBI's **NCIC** (National Crime Information Center) and other states via **NLETS**, the National Law Enforcement Telecommunication System;
- ⇒ smaller applications and interfaces, such as **CARDS** (a fingerprint workflow and revenue tracking system), **SORCR** (sex offender registry software and its Internet access), **UCR** (uniform crime reporting) desktop publishing, **imaging systems**, and **livescan fingerprint machines**, and other special queries/programs to provide and/or exchange **data and statistics**;
- ⇒ implementation of other local, state, and regional interfaces, including **WIN** (Western Identification Network), **motor vehicle, police, courts, prosecutors, and corrections** information systems;
- ⇒ other technical, programming, and network support.

The **Criminal Records and Identification Bureau (CRIB)** is responsible for:

- ⇒ **data entry/updates of criminal history records** and related information in APSIN;
- ⇒ **source document archives** for APSIN records;
- ⇒ **criminal/applicant fingerprint records** and **latent crime scene fingerprint** processing through **AFIS** (Automated Fingerprint Identification System);
- ⇒ **driver's license and booking photos** maintenance, for police line-ups and other functions;
- ⇒ processing requests and fees for **state and national criminal history background check reports**;
- ⇒ **CJIS Systems Agency** (CSA) duties for State of Alaska system access and security;
- ⇒ **audits and training** for compliance with APSIN and NCIC laws and policies;
- ⇒ **audits and training** for agencies submitting criminal justice information to the repository;
- ⇒ **correcting records** and notifying other agencies/individuals of the corrections.

[a] In FY99 DPS became a member of the Western State Identification Network (WIN), a regional fingerprint service bureau. The number of latent fingerprints on file decreased because Alaska no longer has to store latent prints from other WIN member states in its own database.

[b] AFIS record refers to a record identifying a person, not an event - a person with multiple fingerprint cards on file has a single "AFIS record".

[c] "Tenprint" refers to fingerprints received on FBI criminal card/format (from booking facility) or applicant card (for employment/licensing).

[d] Latent refers to crime scene fingerprints received from law enforcement.

[e] "Hit" means a set of fingerprints submitted by Alaska matched a fingerprint record in the WIN database, which consists of criminal and applicant fingerprints from a consortium of western states, including Alaska.

[f] In FY 01, direct entry of live-scan submitted prints was initiated. All criminal cards submitted via live scan were automatically searched. In the past, only those fingerprint cards believed not to already reside in AFIS were searched.

[g] "Hits" for FY 02 includes all identifications made to existing criminal and applicant records in the Alaska portion of the WIN database. Hit on record with different name represents individuals with an existing record within the WIN system (including other "WIN" states) for which the name supplied on the the fingerprint card differed from that on file from the previous submission.

[a] See AS 12.80.060. Decrease in criminal cards mailed in is due to installation of livescans. Since 1998, livescans have been installed at Cook Inlet Pre-Trial, Sixth Avenue Correctional Center, and the Anchorage Court. In FY 2000, livescans were installed at the Mat-Su Pre-Trial facility and the Fairbanks Correctional Facility.

^[a] In November, 2004, DMV ceased submitting duplicate DMV photographs to DPS, due to the implementation of a digital drivers license system. In March, 2005, R&I began accessing digital photos. After implementation of the digital system, the backlog in the filing of DMV photos was eliminated.

^[b] See 13 AAC 68.150. During FY03, the Department of Corrections added electronic booking photo capture and storage systems in 39 booking facilities. During a three month period, in FY03, 503 booking photos were added to the data base (WIN-PHO). These photos are not included in the number reported but are available to Alaska law enforcement via a secure web browser.

^[a] "Arrest Agency" means the agency shown in APSIN to have made the arrest or filed the charge. If the repository receives a source document (e.g., fingerprint card, prosecutor declination, court judgment) about a charge not recorded in APSIN, repository staff must create an "arrest record" in order to add the information from the source document. If the actual arrest agency is unknown, or if there was no arrest, the repository may use the name of the agency listed on the source document as the "arrest" agency.

^[b] Charge means individual charge or count; for example an arrest for one count of burglary and two counts of theft = 3 charges.

^[c] Records entered by Information Systems are test records.

[a] See AS 12.80.060, requiring jails to fingerprint persons for criminal charges at the time of admission and requiring courts to determine, at the time of initial or other court appearance, whether fingerprints are on file for a charge, and if not, or

If, by the time of disposition, APSIN does not show that fingerprints are on file for the charge:

- (1) the prosecutor declined the charge without the subject ever having been arrested/booked or appeared in court;
- (2) the jail failed to take fingerprints at the time of booking;
- (3) the court failed to determine that fingerprints were not on file/order fingerprinting;
- (4) the defendant failed to comply with a court order to be fingerprinted; or
- (5) fingerprints were taken, but were not legible or were not received/processed by the repository -- APSIN was not updated to show FP on file for the

[b] Felony/misdemeanor indicator is set in APSIN only after conviction.

[c] "Other" indicates a clearly erroneous disposition agency code, e.g., an agency other than a court or prosecutor.

[a] the UCR is compiled on a calendar year. The DPS annual report is compiled on a fiscal year.

b] the Aleknagik and Agnoos Police Departments were removed in 2004 because they do not have certified police officers.

[c] the Anvik and Metlakatla Police Departments report directly to federal agencies.

[d] the Houston Police Department was added in December 2004.

[e] the Nenana Police Department disbanded in September 2004.

AS 12.62.140. REPORTING OF WANTED PERSONS/STOLEN PROPERTY

The Criminal Records and Identification Bureau (CRIB) audits agency compliance for entering, updating, and deleting "hot file" information in APSIN and NCIC. "Hot files" include warrants, stolen property, domestic violence protective orders, correctional supervision status, and other information.

Agencies that enter this type of data into APSIN/NCIC are responsible for making sure the data is complete and accurate. They receive periodic reports from the repository, listing the hot files entered by the agency, and requiring the agency to confirm in writing that the entries remain valid, and are complete and accurate.

The auditor selects a sample of the agency's hot files, compares the information to source documents, and calculates a data quality error rate.

TABLE 140A. "HOT FILE" DATA QUALITY

[a] all agencies with direct access to APSIN/NCIC must be audited every two years.

[b] agencies with 'data entry' capabilities receive a data quality audit score (except probation offices) and a non-compliance score. 'Data entry' agencies with no data in the systems may receive an 'N/A' error rate. Agencies with 'query only' capabilities receive a non-compliance score. A 'non-compliance' score may result from misuse of APSIN or NCIC criminal history information, invalid data found in the system, or CTA policies that are not being followed.

AS 12.62.150. COMPLETENESS, ACCURACY, AND SECURITY

The Department must audit the central repository and a sample of other agency information systems/records at least once every two years and undertake an independent audit once every four years to measure compliance with AS 12.62, which became effective in 1995.

The Criminal Records and Identification Bureau audits compliance with APSIN/NCIC laws and policies.

The Criminal Records and Identification Bureau audits criminal history data quality, including compliance with the requirements of AS 12.62.120 for reporting criminal justice information to the repository and compliance with AS 12.80.060 for mandatory fingerprinting.

Two full-time audit positions are supported by a grant from the Division of Alaska State Troopers, from a Bureau of Justice Assistance grant under the Byrne grant program, from 5% of the Byrne funds that must be set-aside each year for records improvement until the state achieves certain completeness, accuracy, and timeliness criteria.

Both auditors use an audit manual (including forms and reporting formats) developed under a grant from the Bureau of Justice Statistics, National Criminal History Improvement Program (NCHIP).

The tables in this section summarize audit (and related training) activities completed during the last fiscal year, in compliance with AS 12.62.150(c). Copies of the actual audit reports/findings are available to criminal justice agencies upon request.

[a] All agencies with direct access to APSIN/NCIC must be audited.

[b] Agencies with data entry capability must be audited on site at least once every two years; those with query-only access may be audited by self-completed questionnaire.

[c] Has entry capability for APSIN, but query-only access to NCIC.

TABLE 150C. APSIN CRIMINAL HISTORY DATA QUALITY AUDITS

AUDIT 2003 - 3rd JUDICIAL DISTRICT ALASKA CRIMINAL HISTORY RECORD AUDIT (SUMMARY)

Purpose 1) Measure data quality of APSIN criminal history records for 1st Judicial District cases
 1) Measure compliance with AS 12.62.120 reporting requirements

Audit Began 5/4/2004
Audit Report Completed in progress
Follow-up Completed in progress

Population criminal charges referred for prosecution to city and state prosecutor offices
Geographic Area 3rd Judicial District
Audit Period January 1 - 31, 2003
Population Size 2,057

Sample Size 91
Total Charges in progress

Overall probability of finding complete and accurate information on fingerprint cards, court dispositions, and in APSIN:

Scores:

Arrest Report	FP Card	Booking Photo	Decline Prosecution	Court Filing	Court Disposition	APSIN
<u>n/a</u>	<u>%</u>	<u>n/a</u>	<u>%</u>	<u>n/a</u>	<u>%</u>	<u>%</u>

Confidence Level **95%** Based on the sample selection criteria, the auditor is 95% certain (confidence level) that the error rates found in the records sampled will be within 10% (precision factor) of the error rates for the entire population.
Precision Factor ± **10%**

NOTE: DPS completed a baseline audit of three Judicial Districts on June 30, 2003. Audited information is reported from criminal justice agencies, as a whole, in each judicial district. Audited information provides an assessment of criminal justice agencies working together to report criminal history information to the repository, not the performance of a specific agency.

AS 12.62.160. RELEASE AND USE OF CRIMINAL JUSTICE INFORMATION

Criminal justice information and the identity of recipients of criminal justice information is confidential and exempt from disclosure under AS 09.25. It may not be used or released except as specifically authorized by law.

Table 160A summarizes the laws authorizing release of criminal justice information maintained by the repository. It shows what information may be released, by whom, to whom, for what purpose, and the type of record subject identification required (e.g., fingerprint, photo ID or other).

This table should not be relied upon for guidance in releasing information, because it may become out of date when laws change throughout the year. It is included to give the reader an overview of the many and complex factors that determine whether release of criminal justice information is authorized. In the table:

"FROM" refers to the type of agency that may release the information, including:

AST	Alaska State Troopers
CJA	Criminal Justice Agency - any criminal justice agency that has an APSIN User Agreement with DPS
DFYS-F	DHSS, Division of Family and Youth Services, Family Services Section
DFYS-Y	DHSS, Division of Family and Youth Services, Youth Services Section
Pros	Prosecutor - federal, state, or municipal
R&I	DPS' Criminal Records and Identification Bureau

"TO" describes the status of the person to whom the information may be given, including:

- "interested person" - someone screening a person for certain responsibilities with children or dependent adults
- "qualified person" - someone approved by DPS to conduct criminal justice research
- "authorized person" - someone authorized by a specific state or federal law to receive certain information

"PURPOSE" descriptions are abbreviated - refer to authorizing statutes for full text

"TYPE" - see AS 12.62.900 or "Criminal Justice Information" definition at the end of this report; also:

- "Serious Offense" includes felonies, domestic violence convictions, other misdemeanors defined in AS 12.62.900
- "<" or "≥ 10 yrs. from uncond. discharge" refers to time since unconditionally discharged for a conviction

Shaded areas indicate the information released may include "sealed" information - see AS 12.62.180

"ID" refers to the type of positive identification of the record subject that is required before releasing information:

- "N" means "none" - a "name check" based on name and other demographics
- "P" means "photo" - it applies to in-person requests by record subjects for their own records
- "F" means "fingerprint" - a tenprint "applicant" fingerprint card must be submitted to R&I

Other categories are self explanatory.

[a] An individual may request a state background check for any purpose. State background checks are non-fingerprint based and are available to the record subject at any R&I office or State Trooper Detachment.

[b] Effective November 15, 2003, 13 AAC 068 expanded options on submitting proof of identity to obtain reports of criminal justice information. The regulation change authorized the Criminal Records and Identification Bureau to accept a written request for criminal justice information, to be mailed to the subject of record, or a third party. Written requests are processed only at R&I Headquarters. R&I began processing written requests for criminal justice information in August, 2004.

AS 12.62.170. CORRECTION OF CRIMINAL JUSTICE INFORMATION

Criminal justice agencies are required to correct their records as needed to achieve completeness and accuracy. R&I receives requests from various sources to research and correct APSIN criminal history records, such as:

- ❖ record subjects;
- ❖ other criminal justice agencies;
- ❖ licensing/employment agencies and organizations; and
- ❖ in-house audits and research

- [a] "Record" means the entire criminal history record in APSIN for one person; one record may involve multiple arrests/charging incidents and each arrest/charging incident may involve multiple criminal charges.
- [b] "Charge" means individual charge or count; for example one count of burglary and two counts of theft = 3 charges
- [c] a record correction may be initiated by: 1) individuals as the result of a background check for employment or other purposes, 2) criminal justice agencies, 3) internally generated reviews targeted for specific groups of criminal history records to ensure data is complete and accurate, 4) routine processing of criminal justice information and, 5) statutorily required audits or reviews.
- [b] Number of records reviewed does not include National Instant Check System (NICS) requests (see Table 170 B).

[a] Requests are from the FBI's National Instant Check System (NICS) office in order to allow the FBI to make a gun transfer determination.

[b] Numbers are by APSIN record (not charge).

[c] Corrections to APSIN criminal history are included in Table 170 A.

[d] Represents the % of incoming NICS requests that require a correction to APSIN criminal history. For example, in FY05, for every 100 NICS requests, 22 required a correction to APSIN criminal history.

[e] Represents the % of NICS corrections to total APSIN corrections. For example, in FY05, NICS corrections comprised 11% of the total corrections made to APSIN.

AS 12.62.180. SEALING OF CRIMINAL JUSTICE INFORMATION

To seal a record means to retain it with special restrictions on dissemination.

Criminal history records maintained by the repository may be sealed only upon receipt of evidence showing that, beyond a reasonable doubt, the record is based on mistaken identity or a false accusation.

TABLE 180A. SEALED RECORDS

AS 12.62.190. PURGING OF CRIMINAL JUSTICE INFORMATION

To purge a record means to remove it permanently, so that it can no longer be accessed electronically from the database.

"Hot files" - such as warrants and conditions of release/supervision are removed from APSIN when no longer valid, upon expiration, or according to a retention schedule. For example, expired domestic violence protective orders are retained in an archive for five years after the date of expiration, based on the retention schedule used by the FBI.

Criminal history records are purged from APSIN only upon the death of the record subject, as confirmed by receipt of information from the Bureau of Vital Statistics, or based on assumption of death at age 99.

The repository does not keep statistics on record purging activities. In FY03, DPS ceased purging records of criminal history records whom a record subject is known to be deceased.

APPENDIX 1. DEFINITION OF CRIMINAL JUSTICE INFORMATION

I. CRIMINAL HISTORY RECORD INFORMATION

- A. PAST CONVICTION INFORMATION:** information showing that an identifiable person who has been unconditionally discharged has been previously convicted of a crime; past conviction information includes:
- i. the terms of any sentence, probation, suspended imposition of sentence, or discretionary or mandatory parole; and
 - ii. information that a criminal conviction has been reversed, vacated, set aside, or been the subject of executive clemency
- B. CURRENT OFFENDER INFORMATION:** information showing that an identifiable person
- i. is currently under arrest for or is charged with a crime and
 - ...prosecution is under review or has been deferred by written or oral agreement;
 - ...a warrant exists for the person's arrest; or
 - ...less than a year has elapsed since the date of the arrest or filing of the charges, whichever is latest;
 - ii. is currently released on bail or on other conditions imposed by a court in a criminal case, either pretrial or post-trial, including the conditions of the release;
 - iii. is currently serving a criminal sentence or is under the custody of the commissioner of corrections for supervision purposes; "current offender information" under this subparagraph includes
 - ...the terms and conditions of any sentence, probation, suspended imposition of sentence, discretionary or mandatory parole, furlough, executive clemency, or other release; and
 - ...the location of any place of incarceration, halfway house, restitution center, or other correctional placement to which the person is assigned; or
 - iv. has had a criminal conviction or sentence reversed, vacated, set aside, or has been the subject of executive clemency;
- C. CRIMINAL IDENTIFICATION INFORMATION:** means fingerprints, photographs, and other information or descriptions that identify a person as having been the subject of a criminal arrest or prosecution.

II. NONCONVICTION INFORMATION: means information that an identifiable person was arrested or that criminal charges were filed or considered against the person and

- A.** a prosecutor or grand jury has elected not to bring criminal proceedings against the person and at least a year has elapsed since that decision;
- B.** criminal charges against the person have been dismissed or the person has been acquitted and at least a year has elapsed since that action; or
- C.** there is no indication of the disposition of the criminal charges or the arrest and at least a year has elapsed since the arrest, filing of the charges, or referral of the matter for review by a prosecutor, whichever is latest.

III. CORRECTIONAL TREATMENT INFORMATION: information about an identifiable person, excluding past conviction information or current offender information, collected to monitor that person in a correctional facility or while under correctional supervision, including the person's current or past institutional behavior, medical, or psychological condition, or rehabilitative progress.

IV. INFORMATION RELATING TO A PERSON TO BE LOCATED, WHETHER OR NOT THAT PERSON IS WANTED IN CONNECTION WITH THE COMMISSION OF A CRIME.
