Description

The Division of Fire and Life Safety is offering a hybrid class that involves a blended learning process through online, individual, group, and in-person activities. To assure the success of the student, it is imperative to have the support of the student's home department. The student may need assistance in practicing skills with a qualified fire and emergency services instructor or firefighter if an instructor is unavailable. They will need access to appropriate equipment necessary for completing the required skills.

Additional Instructors or Qualified Firefighter Mentors

Department Agreement
