

STATE OF ALASKA  
DEPARTMENT of PUBLIC SAFETY  
FIRE STANDARDS COUNCIL

**Certification Fee Schedule**

**DETAILED BREAKDOWN OF FEES**

The Alaska Fire Standards Council has the following fee schedule in place for testing and certification:

- \$25 Written Test-** *Single fee for tests taken during the same sitting (e.g. FFI & HMO)*
- \$25 Practical Test-** *Single fee for combined practical examinations (e.g. FFI & HMO)*
- \$25 Certificate Administration Fee-** **per certificate issued**

Example - A firefighter testing for Firefighter I with Haz-Mat Aware/Ops will pay \$25 for the FF I and Haz-Mat Aware/Ops written test + \$25 for the FF I and Haz-Mat Aware/Ops practical test + \$25 for FF I Certificate+ \$25 for Haz-Mat Aware/Ops Certificate = \$100 Fee

**\$25 Reciprocity – per certificate**, up to the highest level within a single standard when evidence of each prerequisite level is clearly met.

Example 1- the AFSC charges a single \$25 fee for Hazardous Materials Technician (NFPA 472) for requests that include certification documentation for Awareness, Operations, and Mission Specific 6.2 & 6.6). Upon approval the AFSC will recognize and record prerequisite levels in its database as “implied.”

Example 2- A firefighter requesting reciprocity for Firefighter II and Hazardous Materials Awareness/Operations will pay \$25 for FF II + \$25 for HMO = \$50 Fee (the AFSC records FFI as implied)

- Applications for certification will not be processed until the appropriate fee is received.
- Credit/ Debit is preferred, otherwise check/money orders are payable to the *Alaska Fire Standards Council*.
- AFSC fees assist with administrative costs associated with the testing and certification process.
- All fees are **non-refundable**.
- AFSC test fees not paid within 12 months of issuance will result in removal of candidate from the application process and dismissal of score results.

**SUMMARY OF FINAL EXAM AND PROCESSING FEES BY CERTIFICATION TYPE**

**Common certification levels/requests:**
