**Subject:** FW: Talkeetna DMT

I have everything set up for matsu west and talkeetna down in breath. They are all scanned and ready. They have a tank that is not full since they are on the road system and we are low.

Colleen,

We have a new home for the Talkeetna DMT we sent back months ago after the office closed.

It's going to be at a new Ranger station at mile 135 of the Parks Hwy with the same number, 733-2247.

How can I go about getting a DMT sent back to install?

I also need a new external standard bottle for the Willow instrument, it expires soon.

Thanks
