INTRODUCTION

This report includes statistics about criminal justice information, including:

- ...**the number and types of records** maintained by the state central repository;
- ...**the number and types of agencies** using the Alaska Public Safety Information Network (APSIN);
- ...**the volume and types of information** reported to and requested from the repository;
- ...**audits and training** completed to measure and improve record quality and system security; and
- ...**the number of requests to review records** for possible errors and corrections made.

By reporting on compliance with **state and federal criminal justice information laws**, the report is

intended to be useful for planning and evaluating record management resources. See Tables A and B for a partial listing of laws affecting the reporting, maintenance, and release of criminal justice information.

Alaska Statute Title 12, Chapter 62, Criminal Justice Information Systems Security and Privacy, is used as an outline for the report. For each section of AS 12.62 there is a brief summary of requirements, followed by any available statistical data.

To demonstrate trends, most tables are designed to hold five years of data, where it is available. Explanatory notes ([a], [b], etc.) appear *at the end* of each table.

AS 12.62.110. CENTRAL REPOSITORY RESPONSIBILITIES

DPS' Division of Statewide Services operates the state central repository of criminal justice information.

The **Information Systems Section** is responsible for

- ⇒ **APSIN**, the Alaska Public Safety Information Network, an on-line, real time data processing system containing over **12 million records**, with approximately **2,800 computer programs** supporting over **100 on-line functions**, operating **24 hours/day**, for over **5,200 authorized users** employed by local, state, and federal criminal justice agencies;
- ⇒ **CJIS Systems Agency** (CSA, formerly Control Terminal Agency) coordinates duties for network communications and links with the FBI's **NCIC** (National Crime Information Center) and other states via the International Justice and Public Safety Network (formerly, the National Law Enforcement Telecommunication System, NLETS);
- ⇒ smaller applications and interfaces, such as **CARDS** (a fingerprint workflow and revenue tracking system), **SOCKR** (sex offender and child kidnapper registry software and its Internet access), **UCR** (uniform crime reporting) desktop publishing, **imaging systems**, **livescan fingerprint machines**, and other special queries/programs to provide and/or exchange **data and statistics**;
- ⇒ implementation of other local, state, and regional interfaces, including **WIN** (Western Identification Network), **motor vehicle**, **police**, **courts**, **prosecutors**, and **corrections** information systems;
- ⇒ other technical, programming, and network support.

The **Criminal Records and Identification Bureau (CRIB)** is responsible for:

- ⇒ **data entry/updates of criminal history records** and related information in APSIN;
- ⇒ **source document archives** for APSIN records;
- ⇒ **criminal/applicant fingerprint records** and **latent crime scene fingerprint** processing through **AFIS** (Automated Fingerprint Identification System);
- ⇒ **driver's license and booking photos** maintenance, for police line-ups and other functions;
- ⇒ processing requests and fees for **state and national criminal history background check reports**;
- ⇒ **CJIS Systems Agency** (CSA) duties for State of Alaska system access and security;
- ⇒ **audits and training** for compliance with APSIN and NCIC laws and policies;
- ⇒ **audits and training** for agencies submitting criminal justice information to the repository;
- ⇒ **correcting records** and notifying other agencies/individuals of the corrections;
- ⇒ **administration of the Alaska Sex Offender Registration Act (ASORA)** and **Central Registry of Sex Offenders**;
- ⇒ **administration of the Permits and Licensing laws** for security guards, civilian process servers and concealed handgun permits.

[a] AFIS record refers to a record identifying a person, not an event - a person with multiple fingerprint cards on file has a single "AFIS record".

[b] "Tenprint" refers to fingerprints received on FBI criminal card/format (from booking facility) or applicant card (for employment/licensing) counting one entry per person.

[c] Latent refers to crime scene fingerprints received from law enforcement.

[d] "Hit" means a set of fingerprints submitted by Alaska matched a fingerprint record in the WIN database, which consists of criminal and applicant fingerprints from a consortium of western states, including Alaska.

[e] During FY11, a concerted effort was made by both crime labs to purge unidentified latent prints from the system if the statute of limitations was reached.

[f] FY14 database count as of 5/18/14. WIN AFIS system was replaced starting April 2014, but the database size reports were not functioning.

[g] FY14 Hits are as of 5/31/14. Unable to obtain accurate count for month of June due to unavailability of reports.

[h] FY15 Criminal and Applicant FP Submissions with hits on records with a different name are not available.

[i] In FY15, the AFIS system was updated with additional slap prints.

^[a] See 13 AAC 68.150. Represents the number of hard copy booking photos received by the repository; digital booking photos are reported in separate category.

^[b] In FY07, DPS opened the web service that retrieves digital images to law enforcement authorized to receive this information. Consequently, many agencies are retrieving their own photos, freeing up the Office Assistant for other duties.

^[c] On July 26, 2005, the repository began collecting digital jail booking photographs from the Department of Corrections. These photographs are available on-line to authorized APSIN users via a web service and may be used to create lineups or produce individual photographs of persons of interest in an investigation.

^[d] 'Other' includes enlargements and copies.

^[e] On February 11, 2005, the repository began collecting digital DMV photographs. These photographs are available on-line to authorized APSIN users via a web service to create lineups or produce individual photographs of persons of interest or an investigation. In FY2015, a technical problem downloading photos was discovered and rectified.

^[f] On July 26, 2005, the repository began collecting digital jail booking photographs from the Department of Corrections. These photographs are available on-line to authorized APSIN users via a web service and may be used to create lineups or produce individual photographs of persons of interest in an investigation.

- [a] Some agencies have multiple users for contractual purposes or users with limited access or tracking purposes only (in the Matanuska-Susitna Valley Mat-Com provides dispatch services to law enforcement agencies in the region).
- [b] Not all agencies/users have full access to APSIN; some agencies (e.g., noncriminal, non-governmental agencies such as those handling DMV and I/M duties) must have access to noncriminal justice (vehicle) information through the International Justice and Public Safety Network (formerly NLETS) to have limited access for vehicle registration information only; and some DPS administrative personnel do not have direct access. Of the total number of users, approximately 2,200 have only a security clearance to work around DPS's criminal justice systems and information.

[a] "Arrest Agency" means the agency shown in APSIN to have made the arrest or filed the charge. If the repository receives a source document (e.g., fingerprint card, prosecutor declination, court judgment) for a charge not recorded in APSIN, repository staff must create an "arrest record" in order to add the information from the source document. If the actual arrest agency is unknown, or if there was no arrest, the repository may use the name of the agency listed on the source document as the "arrest" agency.

[b] Charge means individual charge or count; for example, an arrest for one count of burglary and two count of theft equals three charges.

[c] Indicates an erroneous arresting agency code.

[a] AS 12.80.060, requires jails to fingerprint persons for criminal charges at the time of admission and requires courts to determine, at the time of initial or other court appearance, whether fingerprints are on file for a charge. If fingerprints are not on file, or

If, by the time of disposition, APSIN does not show that fingerprints are on file for the charge:

- (1) the prosecutor declined the charge without the subject ever having been arrested/booked or appeared in court;
- (2) the jail failed to take fingerprints at the time of booking;
- (3) the court failed to determine that fingerprints were not on file/order fingerprinting;
- (4) the defendant failed to comply with a court order to be fingerprinted; or
- (5) fingerprints were taken, but were not legible or were not received/processed by the repository -- APSIN was not updated to show FP on fi

[b] Felony/misdemeanor indicator is set in APSIN only after conviction.

[c] "Other" indicates an erroneous disposition agency code, e.g., an agency other than a court or prosecutor.

^[a] The Uniform Crime Report is compiled on a calendar year. The DPS annual report is compiled on a fiscal year.

^[b] Contributing agencies are police departments or other arresting agencies that report crime information in the calendar year.

^[c] Non-contributing agencies are police departments or other arresting agencies that did not report crime information in the calendar year. Non-contributing agencies are defined as law enforcement agencies listed in the current year Journal of Alaska Peace Officers, current members of the Alaska Police Standards Council, and/or agencies that have previously contributed their Uniform Crime (UCR) statistics.

^[d] Agencies not required to report do not have current certification, have disbanded, or in the case of Metlakatla and Anvik, report to a federal agency.

AS 12.62.140. REPORTING OF WANTED PERSONS/STOLEN PROPERTY

The Criminal Records and Identification Bureau (CRIB) audits agency compliance for entering, updating, and deleting "hot file" information in APSIN and NCIC. "Hot files" include warrants, stolen property, domestic violence protective orders, correctional supervision status, and other information.

Agencies that enter this type of data into APSIN/NCIC are responsible for making sure the data is complete and accurate. They receive periodic reports from the repository, listing the hot files entered by the agency, and requiring the agency to confirm in writing that the entries remain valid, and are complete and accurate.

The auditor selects a sample of the agency's hot files, compares the information to source documents, and calculates a data quality error rate.

TABLE 140A. "HOT FILE" DATA QUALITY

Agency Audited [a]	FY13 Type of APSIN Access	0% = perfect score = all data in error 100% Data Quality:

Barrow Police Department	Entry	To Be Determined
Kotzebue AST	Entry	To Be Determined
Kotzebue Police Department	Entry	To Be Determined
Kodiak Probations	Entry	To Be Determined
Kodiak Police Department	Entry	To Be Determined

[a] All agencies with direct access to APSIN/NCIC must be audited every two years.

[b] Agencies with 'data entry' capabilities receive a data quality audit score and a non-compliance score. 'Data entry' agencies with no data in the systems may receive a 'N/A' error rate. Agencies with 'query only' capabilities will receive a 'N/A' data quality score. A 'non-compliance' score may result from misuse of APSIN or NCIC criminal history information, invalid data found in the system, or CTA policies that are not being followed.

[c] At the conclusion of the 2011-2013 audit cycle, audits were changed to a biennial calendar year schedule. The six months time between the conclusion of the 2011-2013 cycle and the start of the 2014-2015 cycle was used for internal reorganization of the audit and training program, to include drafting of the DPS CJIS Security Policy and associated agency User Agreements, as well as to move from a paper-based certification/testing program to a web-based one. The next two year audit cycle will conclude by the end of calendar year 2015.

[d] Data Quality audits scores are not available and will be determined at a later date.

AS 12.62.150. COMPLETENESS, ACCURACY, AND SECURITY

The Department must audit the central repository and a sample of other agency information systems/records at least once every two years and undertake an independent audit once every four years to measure compliance with AS 12.62, which became effective in 1995.

The Criminal Records and Identification Bureau audits compliance with APSIN/NCIC laws and policies.

The Criminal Records and Identification Bureau audits criminal history data quality, including compliance with the requirements of AS 12.62.120 for reporting criminal justice information to the repository and compliance with AS 12.80.060 for mandatory fingerprinting.

Two full time auditors use an audit manual (including forms and reporting formats) developed under a grant from the Bureau of Justice Statistics, National Criminal History Improvement Program (NCHIP).

The tables in this section summarize audit (and related training) activities completed during the last fiscal year, in compliance with AS 12.62.150(c). Copies of the actual audit reports/findings are available to criminal justice agencies upon request.

[a] All agencies with direct access to APSIN/NCIC must be audited.

[b] Agencies with data entry capability must be audited on site at least once every two years and those with query only access may be audited by self-completed questionnaire.

[c] Agencies with entry capability for APSIN, but query-only access to NCIC.

[d] At the conclusion of the 2011-2013 audit cycle, audits were changed to a biennial calendar year schedule. The six months time between the conclusion of the 2011-2013 cycle and the start of the 2014-2015 cycle was used for internal reorganization of the audit and training program, to include drafting of the DPS CJIS Security Policy and associated agency User Agreements, as well as to move from a paper-based certification/testing program to a web-based one. The next two year audit cycle will conclude by the end of calendar year 2015.

TABLE 150C. APSIN CRIMINAL HISTORY DATA QUALITY AUDITS

REPOSITORY DATA QUALITY AUDITS

Purpose 1) Measure data quality of criminal history records in the Alaska Public Safety Information Network (APSIN)
2) Measure compliance with AS 12.62.120 reporting requirements

Audit Began 7/1/2014 Judicial Districts 1, 2, 3 and 4
Audit Report Completed 6/30/2015
Follow-up Completed 9/30/2015

Population Criminal charges referred for prosecution to city and state prosecutor offices
Geographic Area Statewide by Judicial District

Judicial District #4	n/a	44%	n/a	75%	95%	85%

n/a: data not available at time of report

Confidence Level 95% Based on the sample selection criteria, the auditor is 95% certain (confidence level) that the error rates found in the records sampled will be within 10% (precision factor) of the error rates for the entire population.
Precision Factor ± 10%

AS 12.62.160. RELEASE AND USE OF CRIMINAL JUSTICE INFORMATION

Criminal justice information and the identity of recipients of criminal justice information is confidential and exempt from disclosure under AS 09.25. It may not be used or released except as specifically authorized by law.

Table 160A summarizes the laws authorizing release of criminal justice information maintained by the repository. It shows what information may be released, by whom, to whom, for what purpose, and the type of record subject identification required (e.g., fingerprint, photo ID or other).

This table should not be relied upon for guidance in releasing information, because it may become out of date when laws change throughout the year. It is included to give the reader an overview of the many and complex factors that determine whether release of criminal justice information is authorized. In the table:

"FROM" refers to the type of agency that may release the information, including:

AST	Alaska State Troopers
CJA	Criminal Justice Agency - any criminal justice agency that has an APSIN User Agreement with DPS
DFYS-F	DHSS, Division of Family and Youth Services, Family Services Section
DFYS-Y	DHSS, Division of Family and Youth Services, Youth Services Section
Pros	Prosecutor - federal, state, or municipal
R&I	DPS' Criminal Records and Identification Bureau

"TO" describes the status of the person to whom the information may be given, including:

- "interested person" - someone screening a person for certain responsibilities with children or dependent adults
- "qualified person" - someone approved by DPS to conduct criminal justice research
- "authorized person" - someone authorized by a specific state or federal law to receive certain information

"PURPOSE" descriptions are abbreviated - refer to authorizing statutes for full text

"TYPE" - see AS 12.62.900 or "Criminal Justice Information" definition at the end of this report; also:

- "Serious Offense" includes felonies, domestic violence convictions, other misdemeanors defined in AS 12.62.900
- "<" or "≥ 10 yrs. from uncond. discharge" refers to time since unconditionally discharged for a conviction

"ID" refers to the type of positive identification of the record subject that is required before releasing information:

- "N" means "none" - a "name check" based on name and other demographics
- "P" means "photo" - an "in-person request" by record subjects for their own records
- "F" means "fingerprint" - a tenprint "applicant" fingerprint card must be submitted to R&I

Other categories are self explanatory.

^[a] State dissemination letters are fingerprint based background checks and provide criminal history information on State of Alaska criminal history.

^[b] Federal dissemination letters are fingerprint based background checks and provide criminal history information on state and national criminal history.

^[c] Beginning in November 2009, the automated production of dissemination letters was implemented. If both state and FBI searches produce negative results, one letter is issued stating that the record was not found either in Alaska or nationally.

^[d] Because of efficiencies implemented in FY2010, and fully realized in 2011, R&I was able to reduce the amount of paper required to disseminate criminal history records by nearly 17,000 sheets of paper in 2011.

AS 12.62.170. CORRECTION OF CRIMINAL JUSTICE INFORMATION

Criminal justice agencies are required to correct their records as needed to achieve completeness and accuracy. R&I receives requests from various sources to research and correct APSIN criminal history records, such as:

- > record subjects;
- > other criminal justice agencies;
- > licensing/employment agencies and organizations; and
- > in-house audits and research

- [a] "Record" means the entire criminal history record in APSIN for one person; one record may involve multiple arrests/charging incidents and each arrest/charging incident may involve multiple criminal charges.
- [b] A record correction may be initiated by: 1) individuals as the result of a background check, 2) criminal justice agencies, 3) internal review of records to ensure data is complete and accurate, 4) routine processing of criminal justice information, and 5) statutorily required audits or reviews.
- [c] "Charge" means individual criminal charge or count; for example one count of burglary and two counts of theft equals 3 charges.
- [d] "Missing" criminal charge means an arrest or an entire charge (arrest and disposition) was missing in APSIN.
- [e] "Fictional" criminal charge means a duplicate criminal charge or non criminal violation.
- [f] "Missing" disposition means conviction or non conviction information that should have been reported to the repository in a prior year. "Missing" dispositions do not include dispositions added from current year criminal justice activity.
- [g] Number of records reviewed does not include National Instant Check System (NICS) requests (Table 170 B).

AS 12.62.180. SEALING OF CRIMINAL JUSTICE INFORMATION

To seal a record means to retain it with special restrictions on dissemination.

Criminal history records maintained by the repository may be sealed only upon receipt of evidence showing that, beyond a reasonable doubt, the record is based on mistaken identity or a false accusation.

TABLE 180A. SEALED RECORDS

Records Sealed	0	<i>na</i>	2	<i>na</i>	0	-100%	1	<i>na</i>	0	-100%

^[a] In FY14, twelve requests to seal criminal history record information were received and two were approved (seven request were rejected due to incomplete applications, three did not meet the criteria for sealing.)

AS 12.62.190. PURGING OF CRIMINAL JUSTICE INFORMATION

To purge a record means to remove it permanently, so that it can no longer be accessed electronically from the database.

"Hot files" - such as warrants and conditions of release/supervision are removed from APSIN when no longer valid, upon expiration, or according to a retention schedule. For example, expired domestic violence protective orders are retained in an archive for five years after the date of expiration, based on the retention schedule used by the FBI. Criminal history records are purged from APSIN only upon the death of the record subject, as confirmed by receipt of information from the Bureau of Vital Statistics, or based on assumption of death at age 99.

The repository does not keep statistics on record purging activities. In FY03, DPS ceased purging records of criminal history records whom a record subject is known to be deceased.

APPENDIX 1. DEFINITION OF CRIMINAL JUSTICE INFORMATION

I. CRIMINAL HISTORY RECORD INFORMATION

- A. PAST CONVICTION INFORMATION:** information showing that an identifiable person who has been unconditionally discharged has been previously convicted of a crime; past conviction information includes:
- i. the terms of any sentence, probation, suspended imposition of sentence, or discretionary or mandatory parole; and
 - ii. information that a criminal conviction has been reversed, vacated, set aside, or been the subject of executive clemency
- B. CURRENT OFFENDER INFORMATION:** information showing that an identifiable person
- i. is currently under arrest for or is charged with a crime and
 - ...prosecution is under review or has been deferred by written or oral agreement;
 - ...a warrant exists for the person's arrest; or
 - ...less than a year has elapsed since the date of the arrest or filing of the charges, whichever is latest;
 - ii. is currently released on bail or on other conditions imposed by a court in a criminal case, either pretrial or post-trial, including the conditions of the release;
 - iii. is currently serving a criminal sentence or is under the custody of the commissioner of corrections for supervision purposes; "current offender information" under this subparagraph includes
 - ...the terms and conditions of any sentence, probation, suspended imposition of sentence, discretionary or mandatory parole, furlough, executive clemency, or other release; and
 - ...the location of any place of incarceration, halfway house, restitution center, or other correctional placement to which the person is assigned; or
 - iv. has had a criminal conviction or sentence reversed, vacated, set aside, or has been the subject of executive clemency;
- C. CRIMINAL IDENTIFICATION INFORMATION:** means fingerprints, photographs, and other information or descriptions that identify a person as having been the subject of a criminal arrest or prosecution.

II. NONCONVICTION INFORMATION: means information that an identifiable person was arrested or that criminal charges were filed or considered against the person and

- A.** a prosecutor or grand jury has elected not to bring criminal proceedings against the person and at least a year has elapsed since that decision;
- B.** criminal charges against the person have been dismissed or the person has been acquitted and at least a year has elapsed since that action; or
- C.** there is no indication of the disposition of the criminal charges or the arrest and at least a year has elapsed since the arrest, filing of the charges, or referral of the matter for review by a prosecutor, whichever is latest.

III. CORRECTIONAL TREATMENT INFORMATION: information about an identifiable person, excluding past conviction information or current offender information, collected to monitor that person in a correctional facility or while under correctional supervision, including the person's current or past institutional behavior, medical, or psychological condition, or rehabilitative progress.

IV. INFORMATION RELATING TO A PERSON TO BE LOCATED, WHETHER OR NOT THAT PERSON IS WANTED IN CONNECTION WITH THE COMMISSION OF A CRIME.
