Follow Up Flag: Follow up
Flag Status: Completed

I was not able to set up the replacement Datamaster you sent out due to the alco tank leaking even after I changed the o-ring. I tried the old tank and it was leaking too. The new tank is down to less than 1000 PSI by the time I stopped trying to get it to seal.

I put the new alco tank in our original Datamaster and here is the VOCR that was run and the files.

Hello Trooper Nunley,

Yes, please just run a VOC and send me the files.

Tatiana Lee

Subject: RE: Datamaster Replacement

I just got back to work from leave today and the Datamaster and new Alco bottle are here and I will install them today. Do you just need to be run a VOC when I complete the install and email you the files or is there more I need to do?

Subject: Datamaster Replacement

Good afternoon Trooper Nunley,

We are sending your agency a replacement datamaster via Everts Air Cargo.

The equipment will be shipped to the following address:

Alaska State Troopers
P.O. Box 89
Galena, Alaska 99741

Thank you,

Tatiana Lee
