Testify Effectively - Win Cases

August 14-15, 2024

Anchorage, Alaska - Alaska State Crime Lab Classroom

Be a better witness....anticipate defense attacks

Officers testify at various phases of criminal cases and the stakes are always high. Cases are won or lost on the quality of the testimony of law enforcement officers. All of the effort and hours put into a good investigation can be destroyed by bad testimony.

Officers will learn to “**de-escalate**” testimony and respond effectively to attacks on police credibility in today’s highly charged environment.

This course offers meaningful training on how to answer the questions government lawyers ask on direct and defense lawyers ask during cross-examination. Officers in all areas of law enforcement will learn how to better prepare for giving testimony under oath and how to effectively handle attacks on credibility. Themes, theories, objections and exhibits and how they are used in the courtroom will be addressed.

Commissioned Officers, Analysts, Corrections Officers, Probation Officers, anyone who testifies in court will benefit from attending this class.

This is a highly effective program, taught by a nationally recognized instructor and tailored to give officers essential skills needed when they are called to testify.

This is a unique interactive program tailored to give officers the practical skills needed when they are called as a witness today.
