Additional Notes

memory COB 2024.05.16

I pulled all files from the long term member of this instrument while it was in service at Ft. Greely MP (2021.07.16 – 2024.03.15) and compared all file types to what was currently in the DM Host Database at the Alaska Crime Lab. It was discovered that (3) VOCs, (2) subject tests and (1) tank change record were missing. The data has been uploaded to DM Host and all files are now present on the instrument and in DM Host.

The screenshot shows a software window titled "Diagnostic Records" with a search filter panel at the top. The filter panel includes an "Apply Filters" button and four input fields: "Serial Number" (100420), "Start Date" (07/16/2021), "End Date" (03/15/2024), and "Max Records" (1000). Below the filters is a table with columns for "Serial Number", "Test Date", "Location", and "SupervisorLastNam". The table area is mostly empty, with a small dialog box overlaid in the center. The dialog box has a close button (X) and contains the text "No records matched." with an "OK" button below it. The window title bar contains standard OS icons (minimize, maximize, close).
