

Alaska Scientific Crime Detection Laboratory
Change in Instrument Status Form

Version: 6.0

Effective: 1/17/2024

Date: 7/5/2024

Instrument #: 100403

Instrument Location: Wasilla PD

Supervisor Name and Agency: Colleen O'Bryant, SCDL and Joseph Opala, WPD

Describe the Status Change or Issue with the Instrument:

Officer Opala contacted me on Friday, July 5th to troubleshoot the possibility of a ~~cross-threaded~~ cross-threaded external standard tank following a tank change. The old tank was removed for low pressure (~110psi) and the new tank was installed. The new tank was cross-threaded and didn't register pressure. Officer Opala reinstalled the old tank to confirm the regulator was functional. Officer Opala obtained a new external standard tank from the Crime Lab, installed that without issue and performed a tank change and subsequent VOC. The instrument was never removed from service during troubleshooting. COB 2024.07.15

If instrument was placed in service or removed from service, fill out the appropriate sections below.

In Service Date/Time: N/A

Out of Service Date/Time: N/A

For Use by SCDL
