INTRODUCTION

This report includes statistics about criminal justice information, including:

- ...**the number and types of records** maintained by the state central repository;
- ...**the number and types of agencies** using the Alaska Public Safety Information Network (APSIN);
- ...**the volume and types of information** reported to and requested from the repository;
- ...**audits and training** completed to measure and improve record quality and system security; and
- ...the number of requests to review records for **possible errors and corrections made**.

By reporting on compliance with **state and federal criminal justice information laws**, the report is intended to be useful for planning and evaluating record management resources. See Tables A and B for a partial listing of laws affecting the reporting, maintenance, and release of criminal justice information.

Alaska Statute Title 12, Chapter 62, Criminal Justice Information Systems Security and Privacy, is used as an outline for the report. For each section of AS 12.62 there is a brief summary of requirements, followed by any available statistical data.

This project was supported by a grant awarded by the Department of Public Safety, Division of Alaska State Troopers, with funding from the Bureau of Justice Assistance, Office of Justice Programs. With continued funding, the Division of Statewide Services will publish an updated report at the end of each fiscal year.

To demonstrate trends, most tables are designed to hold five years of data, where it is available. Explanatory notes ([a], [b], etc.) appear *at the end* of each table.

AS 12.62.110. CENTRAL REPOSITORY RESPONSIBILITIES

DPS' Division of Statewide Services operates the state central repository of criminal justice information.

The Information Systems Section is responsible for

- ⇒ **APSIN**, the Alaska Public Safety Information Network, an on-line, real time data processing system containing over **12 million records**, with approximately **2,800 computer programs** supporting over **100 on-line functions**, operating **24 hours/day**, for over **3,300 authorized users** employed by local, state, and federal criminal justice agencies;
- ⇒ **CJIS Systems Agency** (CSA, formerly Control Terminal Agency) duties for network communications and links with the FBI's **NCIC** (National Crime Information Center) and other states via the International Justice and Public Safety Network (formerly, the National Law Enforcement Telecommunication System, NLETS);
- ⇒ smaller applications and interfaces, such as **CARDS** (a fingerprint workflow and revenue tracking system), **SOCKR** (sex offender and child kidnapper registry software and its Internet access), **UCR** (uniform crime reporting) desktop publishing, **imaging systems**, and **livescan fingerprint machines**, and other special queries/programs to provide and/or exchange **data and statistics**;
- ⇒ implementation of other local, state, and regional interfaces, including **WIN** (Western Identification Network), **motor vehicle**, **police**, **courts**, **prosecutors**, and **corrections** information systems;
- ⇒ other technical, programming, and network support.

The Criminal Records and Identification Bureau (CRIB) is responsible for:

- ⇒ **data entry/updates of criminal history records** and related information in APSIN;
- ⇒ **source document archives** for APSIN records;
- ⇒ **criminal/applicant fingerprint records** and **latent crime scene fingerprint** processing through **AFIS** (Automated Fingerprint Identification System);
- ⇒ **driver's license and booking photos** maintenance, for police line-ups and other functions;
- ⇒ processing requests and fees for **state and national criminal history background check reports**;
- ⇒ **CJIS Systems Agency** (CSA) duties for State of Alaska system access and security;
- ⇒ **audits and training** for compliance with APSIN and NCIC laws and policies;
- ⇒ **audits and training** for agencies submitting criminal justice information to the repository;
- ⇒ **correcting records** and notifying other agencies/individuals of the corrections;
- ⇒ **administration of the Alaska Sex Offender Registration Act (ASORA)** and **Central Registry of Sex Offenders**;
- ⇒ **administration of the Permits and Licensing laws** for security guards, civilian process servers and concealed handgun permits.

[a] AFIS record refers to a record identifying a person, not an event - a person with multiple fingerprint cards on file has a single "AFIS record".

[b] "Tenprint" refers to fingerprints received on FBI criminal card/format (from booking facility) or applicant card (for employment/licensing).

[c] Latent refers to crime scene fingerprints received from law enforcement.

[d] "Hit" means a set of fingerprints submitted by Alaska matched a fingerprint record in the WIN database, which consists of criminal and applicant fingerprints from a consortium of western states, including Alaska.

[e] In FY07, FY08 and FY09, the total database size, number of latents and hit information was available.

[f] In FY10, Slap prints and Palm prints were added to information in the data base.

^[a] See AS 12.80.060. Decrease in criminal cards mailed in is due to installation of livescans. Since 1998, livescans have been installed at Cook Inlet Pre-Trial, Sixth Avenue Correctional Center and the Anchorage Court. In FY 2000, livescans were installed at the Mat-Su Pre-Trial facility and the Fairbanks Correctional Facility.

^[a] See 13 AAC 68.150.

^[b] In FY07, DPS opened the web service that retrieves digital images to law enforcement authorized to receive this information. Consequently, many agencies are retrieving their own photos, freeing up the Administrative Clerk for other duties.

^[c] On July 26, 2005, the repository began collecting digital jail booking photographs from the Department of Corrections. These photographs are available on-line to authorized APSIN users via a web service and may be used to create lineups or produce individual photographs of persons of interest in an investigation.

^[d] 'Other' includes enlargements and copies.

^[e] Individual photos are DMV or booking photos provided to agencies that do not have access to the digital archive or for photos maintained by DPS that are not available in the digital archive. In FY10, the number of photographs on file was as of February 28, 2010.

^[f] On February 11, 2005, the repository began collecting digital DMV photographs. These photographs are available on-line to authorized APSIN users via a web service to create lineups or produce individual photographs of persons of interest or an investigation.

^[g] On July 26, 2005, the repository began collecting digital jail booking photographs from the Department of Corrections. These photographs are available on-line to authorized APSIN users via a web service and may be used to create lineups or produce individual photographs of persons of interest in an investigation.

[a] Records are merged/consolidated due to duplicate records or clerical errors.

[b] Includes corrections and updates to Alaska criminal records and Triple III/FBI records from FBI biannual synchronization tapes and daily updates. A decrease in the number of reconciliations indicates that fewer records maintained in APSIN were not in sync with Triple III files.

AS 12.62.120. REPORTING OF CRIMINAL JUSTICE INFORMATION

Public Safety, after consultation with the CJIAB, enacted regulations defining the time, manner, and format for agencies to report events to the repository, as required in AS 12.62.120. For more information about the reporting requirements, which became effective on January 10, 1997, refer to:

^[a] "Arrest Agency" means the agency shown in APSIN to have made the arrest or filed the charge. If the repository receives a source document (e.g., fingerprint card, prosecutor declination, court judgment) about a charge not recorded in APSIN, repository staff must create an "arrest record" in order to add the information from the source document. If the actual arrest agency is unknown, or if there was no arrest, the repository may use the name of the agency listed on the source document as the "arrest" agency.

^[b] Charge means individual charge or count; for example an arrest for one count of burglary and two counts of theft equals three charges.

^[c] Records entered by Information Systems are test records.

^[d] Indicates an erroneous arresting agency code.

[a] See AS 12.80.060, requiring jails to fingerprint persons for criminal charges at the time of admission and requiring courts to determine, at the time of initial or other court appearance, whether fingerprints are on file for a charge, and if not, or

If, by the time of disposition, APSIN does not show that fingerprints are on file for the charge:

- (1) the prosecutor declined the charge without the subject ever having been arrested/booked or appeared in court;
- (2) the jail failed to take fingerprints at the time of booking;
- (3) the court failed to determine that fingerprints were not on file/order fingerprinting;
- (4) the defendant failed to comply with a court order to be fingerprinted; or
- (5) fingerprints were taken, but were not legible or were not received/processed by the repository -- APSIN was not updated to show FP on file for

[b] Felony/misdemeanor indicator is set in APSIN only after conviction.

[c] "Other" indicates an erroneous disposition agency code, e.g., an agency other than a court or prosecutor.

[a] The Uniform Crime Report is compiled on a calendar year. The DPS annual report is compiled on a fiscal year.

b] Contributing agencies are police departments or other arresting agencies that report crime information in the calendar year.

[c] Non contributing agencies are police departments or other arresting agencies that did not report crime information in the calendar year. Non contributing agencies are defined as law enforcement agencies listed in the current year Journal of Alaska Peace Officers, current members of the Alaska Police Standards Council, and/or agencies that have previously contributed their Uniform Crime (UCR) statistics.

[d] Agencies not required to report do not have current certification, have disbanded, or in the case of Metlakatla and Anvik, report to a federal agency.

AS 12.62.140. REPORTING OF WANTED PERSONS/STOLEN PROPERTY

The Criminal Records and Identification Bureau (CRIB) audits agency compliance for entering, updating, and deleting "hot file" information in APSIN and NCIC. "Hot files" include warrants, stolen property, domestic violence protective orders, correctional supervision status, and other information.

Agencies that enter this type of data into APSIN/NCIC are responsible for making sure the data is complete and accurate. They receive periodic reports from the repository, listing the hot files entered by the agency, and requiring the agency to confirm in writing that the entries remain valid, and are complete and accurate.

The auditor selects a sample of the agency's hot files, compares the information to source documents, and calculates a data quality error rate.

TABLE 140A. "HOT FILE" DATA QUALITY

Alaska State Troopers - Nome	Full	18%
Bethel Police Department	Full	29%
Alaska State Troopers - Bethel	Full	30%
Nome Police Department	Full	31%
Nome District Attorney	Query Only	N/A

[a] all agencies with direct access to APSIN/NCIC must be audited every two years.

[b] agencies with 'data entry' capabilities receive a data quality audit score and a non-compliance score. 'Data entry' agencies with no data in the systems may receive an 'N/A' error rate. Agencies with 'query only' capabilities will receive a 'N/A' data quality score. A 'non-compliance' score may result from misuse of APSIN or NCIC criminal history information, invalid data found in the system, or CTA policies that are not being followed.

AS 12.62.150. COMPLETENESS, ACCURACY, AND SECURITY

The Department must audit the central repository and a sample of other agency information systems/records at least once every two years and undertake an independent audit once every four years to measure compliance with AS 12.62, which became effective in 1995.

The Criminal Records and Identification Bureau audits compliance with APSIN/NCIC laws and policies.

The Criminal Records and Identification Bureau audits criminal history data quality, including compliance with the requirements of AS 12.62.120 for reporting criminal justice information to the repository and compliance with AS 12.80.060 for mandatory fingerprinting.

Two full-time audit positions are supported by a grant from the Division of Alaska State Troopers, from a Bureau of Justice Assistance grant under the Byrne grant program, for records improvement until the state achieves certain completeness, accuracy, and timeliness criteria.

Both auditors use an audit manual (including forms and reporting formats) developed under a grant from the Bureau of Justice Statistics, National Criminal History Improvement Program (NCHIP).

The tables in this section summarize audit (and related training) activities completed during the last fiscal year, in compliance with AS 12.62.150(c). Copies of the actual audit reports/findings are available to criminal justice agencies upon request.

TABLE 150C. APSIN CRIMINAL HISTORY DATA QUALITY AUDITS

DATA QUALITY AUDITS - 1st, 2nd and 4th JUDICIAL DISTRICT

ALASKA CRIMINAL HISTORY RECORD AUDITS

Purpose	1) Measure data quality of APSIN criminal history records for 3rd Judicial District cases 1) Measure compliance with AS 12.62.120 reporting requirements
Audit Began	8/15/2009
Audit Report Completed	6/30/2010
Follow-up Completed	6/30/2010
Population	criminal charges referred for prosecution to city and state prosecutor offices
Geographic Area	Judicial District #3
Audit Period	January 1-31, 2009

Population Size	1,858
Sample Size	91

Scores represent the probability of finding complete and accurate information on fingerprint cards, declination reports, court dispositions, and in APSIN:

<u>Scores:</u>	Arrest Report	FP Card	Booking Photo	Decline Prosecution	Court Filing	Court Disposition	APSIN
Judicial District #1	n/a	35%	n/a	76%	n/a	95%	61%

n/a: data not audited or not available

Confidence Level	95%	Based on the sample selection criteria, the auditor is 95% certain (confidence level) that the error rates found in the records sampled will be within 10% (precision factor) of the error rates for the entire population.
Precision Factor ±	10%	

AS 12.62.160. RELEASE AND USE OF CRIMINAL JUSTICE INFORMATION

Criminal justice information and the identity of recipients of criminal justice information is confidential and exempt from disclosure under AS 09.25. It may not be used or released except as specifically authorized by law.

Table 160A summarizes the laws authorizing release of criminal justice information maintained by the repository. It shows what information may be released, by whom, to whom, for what purpose, and the type of record subject identification required (e.g., fingerprint, photo ID or other).

This table should not be relied upon for guidance in releasing information, because it may become out of date when laws change throughout the year. It is included to give the reader an overview of the many and complex factors that determine whether release of criminal justice information is authorized. In the table:

"FROM" refers to the type of agency that may release the information, including:

AST	Alaska State Troopers
CJA	Criminal Justice Agency - any criminal justice agency that has an APSIN User Agreement with DPS
DFYS-F	DHSS, Division of Family and Youth Services, Family Services Section
DFYS-Y	DHSS, Division of Family and Youth Services, Youth Services Section
Pros	Prosecutor - federal, state, or municipal
R&I	DPS' Criminal Records and Identification Bureau

"TO" describes the status of the person to whom the information may be given, including:

- "interested person" - someone screening a person for certain responsibilities with children or dependent adults
- "qualified person" - someone approved by DPS to conduct criminal justice research
- "authorized person" - someone authorized by a specific state or federal law to receive certain information

"PURPOSE" descriptions are abbreviated - refer to authorizing statutes for full text

"TYPE" - see AS 12.62.900 or "Criminal Justice Information" definition at the end of this report; also:

- "Serious Offense" includes felonies, domestic violence convictions, other misdemeanors defined in AS 12.62.900
- "<" or "≥ 10 yrs. from uncond. discharge" refers to time since unconditionally discharged for a conviction

"ID" refers to the type of positive identification of the record subject that is required before releasing information:

- "N" means "none" - a "name check" based on name and other demographics
- "P" means "photo" - it applies to in-person requests by record subjects for their own records
- "F" means "fingerprint" - a tenprint "applicant" fingerprint card must be submitted to R&I

Other categories are self explanatory.

^[a] State disseminations letters are fingerprint based background checks and provide criminal history information on State of Alaska criminal history.

^[b] Federal dissemination letters are fingerprint based background checks and provide criminal history information on state and national criminal history. In FY09, a decrease in production was due to a staffing shortage of Alaska Automated Fingerprint Identification System (AAFIS) operators.

^[c] Beginning in November 2009, the automated production of dissemination letters was implemented. If both state and FBI searches produce negative results, one letter is issued stating that the record was not record found either in Alaska or nationally.

AS 12.62.170. CORRECTION OF CRIMINAL JUSTICE INFORMATION

Criminal justice agencies are required to correct their records as needed to achieve completeness and accuracy. R&I receives requests from various sources to research and correct APSIN criminal history records, such as:

- ❖ record subjects;
- ❖ other criminal justice agencies;
- ❖ licensing/employment agencies and organizations; and
- ❖ in-house audits and research

- [a] "Record" means the entire criminal history record in APSIN for one person; one record may involve multiple arrests/charging incidents and each arrest/charging incident may involve multiple criminal charges.
- [b] "Charge" means individual charge or count; for example one count of burglary and two counts of theft = 3 charges
- [c] a record correction may be initiated by: 1) individuals as the result of a background check for employment or other purposes, 2) criminal justice agencies, 3) internal reviews targeted for specific groups of criminal history records to ensure data is complete and accurate, 4) routine processing of criminal justice information and, 5) statutorily required audits or reviews.
- [d] Number of records reviewed does not include National Instant Check System (NICS) requests (Table 170 B).

[b] Numbers are by APSIN record (not charge).

AS 12.62.180. SEALING OF CRIMINAL JUSTICE INFORMATION

To seal a record means to retain it with special restrictions on dissemination.

Criminal history records maintained by the repository may be sealed only upon receipt of evidence showing that, beyond a reasonable doubt, the record is based on mistaken identity or a false accusation.

TABLE 180A. SEALED RECORDS

	on 6/30/10	+/- prior year	on 6/30/09	+/- prior year	on 6/30/08	+/- prior year	on 6/30/07	+/- prior year	on 6/30/06	+/- prior year
Records Sealed	2	-33%	3	200%	1	n/a	2	n/a	0	-100%

^[a] In FY10, four requests to seal criminal history information were received and two were approved.

AS 12.62.190. PURGING OF CRIMINAL JUSTICE INFORMATION

To purge a record means to remove it permanently, so that it can no longer be accessed electronically from the database.

"Hot files" - such as warrants and conditions of release/supervision are removed from APSIN when no longer valid, upon expiration, or according to a retention schedule. For example, expired domestic violence protective orders are retained in an archive for five years after the date of expiration, based on the retention schedule used by the FBI.

Criminal history records are purged from APSIN only upon the death of the record subject, as confirmed by receipt of information from the Bureau of Vital Statistics, or based on assumption of death at age 99.

The repository does not keep statistics on record purging activities. In FY03, DPS ceased purging records of criminal history records whom a record subject is known to be deceased.

APPENDIX 1. DEFINITION OF CRIMINAL JUSTICE INFORMATION

I. CRIMINAL HISTORY RECORD INFORMATION

- A. PAST CONVICTION INFORMATION:** information showing that an identifiable person who has been unconditionally discharged has been previously convicted of a crime; past conviction information includes:
- i. the terms of any sentence, probation, suspended imposition of sentence, or discretionary or mandatory parole; and
 - ii. information that a criminal conviction has been reversed, vacated, set aside, or been the subject of executive clemency
- B. CURRENT OFFENDER INFORMATION:** information showing that an identifiable person
- i. is currently under arrest for or is charged with a crime and
 - ...prosecution is under review or has been deferred by written or oral agreement;
 - ...a warrant exists for the person's arrest; or
 - ...less than a year has elapsed since the date of the arrest or filing of the charges, whichever is latest;
 - ii. is currently released on bail or on other conditions imposed by a court in a criminal case, either pretrial or post-trial, including the conditions of the release;
 - iii. is currently serving a criminal sentence or is under the custody of the commissioner of corrections for supervision purposes; "current offender information" under this subparagraph includes
 - ...the terms and conditions of any sentence, probation, suspended imposition of sentence, discretionary or mandatory parole, furlough, executive clemency, or other release; and
 - ...the location of any place of incarceration, halfway house, restitution center, or other correctional placement to which the person is assigned; or
 - iv. has had a criminal conviction or sentence reversed, vacated, set aside, or has been the subject of executive clemency;
- C. CRIMINAL IDENTIFICATION INFORMATION:** means fingerprints, photographs, and other information or descriptions that identify a person as having been the subject of a criminal arrest or prosecution.

II. NONCONVICTION INFORMATION:

means information that an identifiable person was arrested or that criminal charges were filed or considered against the person and

- A.** a prosecutor or grand jury has elected not to bring criminal proceedings against the person and at least a year has elapsed since that decision;
- B.** criminal charges against the person have been dismissed or the person has been acquitted and at least a year has elapsed since that action; or
- C.** there is no indication of the disposition of the criminal charges or the arrest and at least a year has elapsed since the arrest, filing of the charges, or referral of the matter for review by a prosecutor, whichever is latest.

III. CORRECTIONAL TREATMENT INFORMATION:

information about an identifiable person, excluding past conviction information or current offender information, collected to monitor that person in a correctional facility or while under correctional supervision, including the person's current or past institutional behavior, medical, or psychological condition, or rehabilitative progress.

IV. INFORMATION RELATING TO A PERSON TO BE LOCATED, WHETHER OR NOT THAT PERSON IS WANTED IN CONNECTION WITH THE COMMISSION OF A CRIME.
