Instrument #: 100692

Instrument Location: Girdwood PD

Supervisor Name and Agency: Colleen O'Bryant, SCDL

Describe the Status Change or Issue with the Instrument:

On 2022.04.27 I pulled all testing data from long term memory from 100686 and 100692. This includes all file types. This data was transferred and imported into the DMHost Database utilized by the Breath Test Program. The as found data, prior to any transfers occurring, the data post modem line transfer and the data post long term memory retrieval were all compared against each other.

Girdwood PD was found to have the following missing files: 3 subject tests and 1 Verification of Calibration.

If instrument was placed in service or removed from service, fill out the appropriate sections below.

Whittier PD and Girdwood PD Data Retrieval 2022.04.27

On 2022.04.27 I pulled all testing data from long term memory from 100686 and 100692. This includes all file types. This data was transferred and imported into the DMHost Database utilized by the Breath Test Program. The as found data, prior to any transfers occurring, the data post modem line transfer and the data post long term memory retrieval were all compared against each other.

Background

DataMaster DMT 100686 was placed in service at Whittier PD on 2019.12.31 and was removed from service on 2022.03.23 for data file evaluation. The instrument was functional when it was removed from service.

DataMaster DMT 100692 was placed in service at Girdwood PD on 2019.03.05 and was removed from service on 2022.03.28 for data file evaluation. The instrument was functional when it was removed from service.

Upon arrival at the Crime Lab, both instruments successfully uploaded. This demonstrates the functionality of the modem board. The instruments also successfully uploaded during certification in 2019. These instruments returned from the field for data file evaluation after 3 years of unsuccessful uploading while in the field at their respective agencies.

Test data for each instrument was printed from the DMHost Database. It was printed three times; first upon arrival demonstrating all files that were in the database as of 2022.04.26, second after the instruments were successfully uploaded via modem line while at the Crime Lab, and last after all files were pulled from the instrument's long term memory and transferred to the database. These records were all compared for completeness.

Whittier PD was found to have the following missing files: 7 subject tests and 1 tank change record.

Girdwood PD was found to have the following missing files: 3 subject tests and 1 Verification of Calibration.
