Revised September, 2015

V14-2

Investigator Renewal Requirements

The Alaska Fire Standards Council ([AFSC](#)) has designed this packet to assist fire investigators with renewal for previously issued certification. The AFSC AKFIT & CFI certification levels have specific expiration dates for each certificate that is issued. For initial certification and renewals, the individual expiration date is 3-years from the issuance date. Official expiration/renewal dates are listed on all issued certificates or within the AFSC [IMPACT](#) database. The CFI level supersedes AKFIT and only one [Fire Investigator Renewal Packet](#) is needed for renewal as a CFI.

A previously certified investigator can renew certification by providing documentation under item 1 *and* 2 as follows:

1. Documentation of fire investigator learning *and/or* instructional delivery of fire investigator related training.
 - a. Documentation of attendance at one or more *courses totaling 40 classroom/field hours during the previous period of certification (up to 40 total hours) with primary objectives that meet the following criterion:
 - i. Directly relate to fire investigative topics outlines within NFPA 1033 1.3.7 (2014 edition), to include: fire science; fire chemistry; thermodynamics; thermometry; fire dynamics; explosion dynamics; computer fire modeling; fire investigation; fire analysis; fire investigation methodology; fire investigation technology; hazardous materials; failure analysis and analytical tools; fire protection systems; evidence documentation, collection, and preservation; and electricity and electrical systems.
**Qualifying courses include hours accrued through [CFITrainer.net](#), AAFAI conference attendance hours, and other related CFI course hours. All CEU's must be specific to CFI training and education hours and are subject to AFSC review and final approval.*
 - b. Documentation that an individual **instructed classroom/field hours during the 3-year certification period (up to 40 total hours) on topics specifically related to NFPA 1033 1.3.7 (listed above).
***Instructional delivery is specific to training public safety personnel (not public education/presentations). Course preparation and closeout time **do not** apply.*
 - c. Any combination of **a** and **b** above **equivalent to a minimum of 40-hours over the **3-years preceding the renewal request.**

2. Submit a Fire Investigator renewal packet within one-year of the expiration date.

Note: For item "2", this AFSC [Investigator Renewal Packet](#) is available online. The packet items must be reviewed and signed by applicant Chief/Designated Supervisor before return to the AFSC office.

Additional Renewal Requirements for CFI Level Applicants Only:

3. ***must submit 2 (two) fingerprint cards processed by an approved service ([click for Approved Fingerprinters](#)).

**** The AFSC will perform the criminal background check before issuance of final certification. An individual convicted of a felony is not eligible for certification at this level (report is sent to applicant)*

Alaska Fire Investigator Renewals (AKFIT & CFI) For Expirations More Than 12-Months

Individual renewal for AFSC (or SOA issued) fire investigator certificates that are expired **more than 12-months** must complete the items listed below:

- a. Complete the renewal steps in the previous section; and,
- b. provide clear documentation of 20 additional hours (**60 total hours when combined with renewal requirement above**) of fire investigator learning *and/or* instructional delivery of fire investigator related training specific to fire and arson investigation, that has been completed within the 3-years preceding the renewal application date.
- c. complete a Certified Fire Investigator written exam with a minimum score of 70%
