Yes, I just packaged it up so it should arrive in Bethel tomorrow via Alaska Air Cargo. Attached is the air waybill.

Can you try and send it sooner? I leave for SPI August 7<sup>th</sup>, and will be away for 4 months.

Okay, thank you for trying. I ended up being able to connect and remote into the instrument today and preform a passing VOC.

For your awareness, this instrument is due for preventative maintenance this month. Our technician should be sending you a new instrument in the next week or so to swap them out.

Thank you,

**Subject:** DataMaster VOC Bethel

Good afternoon,

It looks like your instrument (100369) did not run the VOC on 6/18/2024. Can you (or an operator) please initiate a VOC whenever you have the chance?

Can you also confirm that this modem number is correct 907-543-0009?

Thank you!
