Subject: Re: AST/Emmonak DMT In Service

Follow Up Flag: Follow up
Flag Status: Flagged

I just got word back from the Emmonak Trooper. That would work.

Jeff,

It looks like 100665 was ready for preventative maintenance on 2022.03.02. Due to aircraft issues you haven't been able to remove it from service and put 100691 in service.

Do you see any issue with the breath program remotely taking 100665 out of service? When 100691 is placed in service the agency would be back up and running. A subject test has not been performed on 100665 since 2020.07.23.
