

Alaska Scientific Crime Detection Laboratory

Change in Instrument Status Form

Issued: 6/11/2014
Effective: 6/11/2014

Version: CIISF 2014 R0
Status: Active

Date: 12/08/2017 Instrument Serial Number: 100398

Instrument Location: Galena Police Department Galena, Alaska

Supervisor Name and Agency: Officer Vincet Garay

Describe the Status Change or Issue with the Instrument:

Above listed DataMaster was placed out of service on 12/08/17, at 1030 hours, due to power outage and back up battery (APC) was not holding charge. Power was restored on 12/08/17, at 1235 hours, DataMaster was turned on, warmed up and a VOC test was initiated on 12/08/17, at 1312 hours, which indicated PASSED. Datamaster was placed back in service on 12/08/17, at 1330 hours.

If instrument was placed in service or removed from service, fill out the appropriate sections below.

In Service Date/Time: 12/08/17, at 1330 hours.

Out of Service Date/Time: 12/08/17, at 1030 hours.

For Use by SCDL

Additional Notes

Email completed form to dps.scdl.toxicology@alaska.gov

Subject: 100398 - Galena PD - APC not holding charge during power outages
Attachments: Change in Instrument Status Form 2014 R0.pdf

Below is a link to the battery you need to purchase for your APC unit. I clicked the "Where to Buy" button and it looks like Amazon has them in stock.

<http://www.apc.com/shop/us/en/products/APC-Replacement-Battery-Cartridge-2/P-RBC2>

Attached is the Change in Instrument Status form that you need to fill out. Out of Service should be the date and time the power went out. When you install the new back up battery, plug the Datamaster back in, turn it on, and initiate a VOC. When the VOC completes successfully, put the date and time on the In Service section of the Change in Instrument status form. Email the form to dps.scdl.toxicology@alaska.gov after completing it.

Thank you,
Chuck
