UNIFORM CRIME REPORTING PROGRAM

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort by city, state, and county law enforcement agencies to report data on crimes brought to their attention. This methodology for crime reporting was developed by the International Association of Police Chiefs (IACP) in response to the need for national crime statistics. The data provides the information necessary to gain a basic understanding of the nature and scope of the nation's crime problem.

The Federal Bureau of Investigation (FBI) identified eight offense categories, selected because of their seriousness and frequency, as crime index offenses. The crime index contains both violent crimes (crimes against people) and property crimes. The crime index includes murder, forcible rape, robbery, and aggravated assault in the violent crime group and burglary, larcenytheft, motor vehicle theft, and arson in the property crime category. The UCR Program also collects statistical data on officer assault, and persons arrested for Part I and Part II crimes. The FBI assumed administrative responsibility for the program in 1930. The FBI receives and tabulates nationwide data and annually publishes these statistics in *Crime in the United States*.

Since June of 1982, the Department of Public Safety (DPS) has administered the UCR Program for the State of Alaska. DPS's Division of Administrative Services is responsible for collecting, tabulating, reporting, and publishing the UCR data provided by local law enforcement agencies participating in the program; however, the submitting agency retains responsibility for the accuracy of the data. UCR is a voluntary program and the number of agencies reporting data to DPS varies from year to year.

In 1994, 29 agencies provided crime information to the department. These agencies represent all of the major cities and 95 percent of the state's population. This is equivalent to national reporting levels. Monthly crime statistics, created from the Alaska Public Safety Information Network (APSIN) or locally generated reports, are forwarded to the FBI for inclusion in its annual report and are used to compile the annual *Crime Reported in Alaska* publication. This document is a major resource for measuring the trend and distribution of crime in Alaska.

1994 REPORTED CRIME FREQUENCY

The Crime Clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Crime Index Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

1994 UCR CRIME INDEX

DEFINITION

The crime index is composed of selected offenses used to gauge fluctuations in the overall volume and rate of crime reported to law enforcement. The offenses included are the violent crimes of murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault and the property crimes of burglary, larceny-theft, motor vehicle theft, and arson. All violent crime involves force or threat of force whereas the object of property crime is the taking of money or property without force or threat of force against the victim.

The FBI began collecting arson data in 1979. Because national population coverage for arson data is lower than for other Crime Index offenses, the FBI tabulates arson data separately from the other index offenses in *Crime in the United States*. To retain uniformity with federal reporting, Alaska excludes arson from the state crime index and rate calculations. The data is included at the agency level.

SUMMARY

In 1994, Alaska experienced an increase in the total number of both violent and property crimes. However, a one percent increase in the population base, for agencies reporting data, caused a 2.3 percent reduction in the crime rate. There was no significant change in the distribution of crime by category between 1994 and 1993. In 1994, 13.5 percent of the total crimes were violent crimes and 86.5 percent property crimes; in 1993, 13.7 percent of the crimes were crimes against people and 86.3 percent were crimes against property. The crime totals and rates tabulated in *Crime Reported in Alaska* include the reporting areas only. Caution should be exercised when comparing data from one year to another.

1994 MURDER AND NON-NEGLIGENT MANSLAUGHTER

DEFINITION

"Murder and non-negligent manslaugher, as defined in the Uniform Crime Reporting Program, is the willful (nonnegligent) killing of one human being by another.

The classification of this offense, as for all other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coronor, jury, or other judicial body. Not included in the count for this offense classification are deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are scored as aggravated assaults." ¹

SUMMARY

A total of 37 murders were reported in 1994. This represents 0.8 percent of the violent crime and 0.1 percent of the total crime index offenses. There were 29.7 percent fewer murders in 1994 than 1993. Monthly figures show that more persons were murdered in September than any other month in 1994 while the fewest number were killed in March. 29.7 percent of the offenders were between the ages of ten and ninteen, and 43.2 percent of the victims were in the same age bracket. Over 70 percent of the perpetrators and 95 percent of the victims were male. The weapon used in over half (54 percent) of all homicides was a gun.

1994 FORCIBLE RAPE

DEFINITION

"Forcible rape, as defined in the Program, is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are excluded." By Uniform Crime Reporting definition, the victims of forcible rape are always female.

SUMMARY

A total of 405 rapes were reported in 1994. This represents 1.2 percent of the total crime index offenses and 9.8 percent of the violent crime. There were 16.8 percent fewer rapes in 1994 than 1993. Monthly figures indicate that more persons were raped during August than any other month while the fewest number were raped in November. 43.4 percent of the persons arrested for rape were between the ages of 25 and 39.

As is the case for all other Crime Index Offenses, complaints of forcible rape made to law enforcement agencies are sometimes found to be false or baseless. In such cases, law enforcement agencies report these instances as "unfounded" and exclude them from the crime counts. The "unfounded" rate, or percentage of complaints determined through investigation to be false is higher for forcible rape than any other Index crime. In 1994, 10 percent of forcible rape complaints were "unfounded", while the average of all Index crimes was 3 percent.

1994 ROBBERY

DEFINITION

"Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear."

SUMMARY

A total of 864 robberies were reported in 1994. This represents 2.6 percent of the total crime index offenses and 19.4 percent of the violent crime. There were 21.2 percent more robberies in 1994 than 1993. Monthly figures indicate that more persons were robbed during August than any other month while the fewest number were robbed in April. 41.2 percent of the robberies were committed through the use of strong-arm tactics and another 37.6 percent by firearms. 10.9 percent of the persons arrested for robbery were 17 and an additional 12 percent were between the ages 30 and 34. 82.6 percent of the persons arrested for robbery were male.

The estimated value of the property loss related to these offenses is \$410,770. Robberies on streets or highways accounted for more than half (56.5 percent) of the offenses in this category and 45 percent of the property loss.

1994 AGGRAVATED ASSAULT

DEFINITION

"Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed."

SUMMARY

A total of 3,152 aggravated assaults were reported in 1994. This represents 70.7 percent of the violent crimes and 9.6 percent of the total crime index offenses. Aggravated assaults increased only slightly, less than one percent, between 1993 and 1994. Monthly figures indicate that more persons were assaulted in August than any other month in 1994 while the fewest number were assaulted in November. 46.9 percent of the offenders were between the ages of twenty-five and thirty-nine. Over 80 percent of the persons arrested for aggravated assault were male.

Strong-arm tactics, the use of personal weapons such as hands, fists, and feet, were used in committing 30.6 percent of the aggravated assaults. Of the remaining weapon categories, firearms were used in 24.5 percent of the offenses, blunt objects or other dangerous weapons in 23.4 percent, and a knife or other cutting instrument in 21.5 percent.

1994 BURGLARY

DEFINITION

"Burglary is the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary. Burglary in this Program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry."⁵

SUMMARY

A total of 4,605 burglaries were reported in 1994. This represents 16.4 percent of the property crime and 14.2 percent of the total crime index offenses. Burglary volume dropped by 2.3 percent in 1994 from the 1993 total. Monthly figures indicate that more burglaries occurred during the month of August than any other month in 1994 while the fewest number occurred in January. 61.5 percent of the persons arrested for burglary were under the age of 18. Males constituted 91.5 percent of the offenders.

Six out of every 10 burglaries were residential in nature. The estimated value of the related property loss is \$5,373,979. For those instances where the time of the burglary is known, approximately 77 percent of them occurred at night. Forcible entry was involved in 66.7 percent of the burglaries, 26.9 percent were unlawful entries (without force) and the remainder were forcible entry attempts.
