## AFSC FIREFIGHTER II PRACTICAL SKILLS EVALUATION PACKET

<b>Fire Fighter II Practical Skills Job Performance Requirements (NFPA 1001, 2013 Edition)</b>			
2013 Skill Sheet	NFPA Section	Tasks	Certification JPR Requirement: *4 Mandatory 3 Random
<b>6.1 General Skill Requirements</b>			
<a href="#"><u>FFII 1</u></a>	6.1.2	Determine need for command	<b>Mandatory</b>
<b>6.2 Communication Skill Requirements</b>			
<a href="#"><u>FFII 2</u></a>	6.2.1	Complete a basic incident report	Random
<a href="#"><u>FFII 3</u></a>	6.2.2	Communicate need for assistance	<b>Mandatory</b>
<b>6.3 Fireground Operation Skill Requirements</b>			
<a href="#"><u>FFII 4</u></a>	6.3.1	Extinguish an ignitable liquid fire	Random
<a href="#"><u>FFII 5</u></a>	6.3.2	Coordinate an interior attack line for a structure fire	<b>Mandatory</b>
<a href="#"><u>FFII 6</u></a>	6.3.3	Control a flammable gas cylinder fire	Random
<a href="#"><u>FFII 7</u></a>	6.3.4	Protect evidence of fire cause and origin	Random
<b>6.4 Rescue Operation Skill Requirements</b>			
<a href="#"><u>FFII 8</u></a>	6.4.1	Extricate a victim entrapped in a motor vehicle as part of a team	Random
<a href="#"><u>FFII 9</u></a>	6.4.2	Assist rescue operation teams	Random
<b>6.5 Prevention, Preparedness, and Maintenance</b>			
<a href="#"><u>FFII 10</u></a>	6.5.1	Perform a fire safety survey in a private dwelling	Random
<a href="#"><u>FFII 11</u></a>	*6.5.2	Present fire safety information to station visitors or small groups	<b>**Mandatory</b>
<a href="#"><u>FFII 12</u></a>	6.5.3	Prepare a pre-incident survey	Random
<a href="#"><u>FFII 13</u></a>	6.5.4	Maintain power plants, power tools, and lighting equipment	Random
<a href="#"><u>FFII 14</u></a>	6.5.5	Perform an annual service test on fire hose	Random

*\*6.5.2 is evaluated locally and the practical skill check-off is completed by the Lead Instructor or a Chief Officer prior to the certification examination date*

*\*\*Candidate is not required to repeat this skill if it was completed for the AFSC FFI certification test within 3 years of FFII test date*

## Skill Sheet Packet Instruction

### Purpose of the Skill Sheets

All skills listed in this packet are consistent with All skills listed in this packet are consistent with [NFPA 1001, Standard for Firefighter Professional Qualifications, 2013 edition](#). The Alaska Fire Standards Council (AFSC) provides these skill sheets as the basis for Firefighter II testing and certification.

### Description & Use

For certification purposes, the final skill examination will consist of a series of mandatory skill stations and a selection of random skills from this packet. [Hazardous Materials Operations](#) and [Firefighter I](#) are requisite certification for Firefighter II certification in Alaska.

1. These skills sheets are for use by the Training Program Manager/Training Officer, or designee, and Firefighter II candidate. Use of this packet throughout a training program will assist in verifying candidate competency and completion of the [Firefighter II Training Record](#).
2. For eligibility to complete the final certification examination, a candidate must demonstrate competency in all skills during training.
3. This packet encompasses the requisite skills for Firefighter II for use during final testing for certification. Firefighter II courses material should utilize this packet to prepare candidates for the certification exam.
4. The final skills examination will consist of skills selected from this packet. A candidate must successfully perform each skill while being evaluated on performance competency by an AFSC examination representative.
5. The Certifying Officer will notify candidates which skills they will be required to complete at the start of the practical skills portion on the date of the examination.
6. The Training Officer/Training Program Manager or designee must complete and sign the Firefighter II Training Record for each candidate before a candidate can begin the final skills examination. The Firefighter II Training Record shall become a permanent part of the candidate's local training record, and this information shall be kept on file in accordance with local fire department procedures.

### Grading Criteria

1. All skill sheet elements shall be evaluated by the Firefighter II instructor throughout a course. During the final skills exam the candidate must be prepared to perform all the skills listed in this packet. There are no specific critical points designated within the practical skill sheets, and the Certifying Officer (CO) will require the candidate to repeat an individual practical skill station if *all* of the listed skill items on a selected sheet are not completed by the candidate.
2. This packet contains skill requirements that involve the demonstration of firefighting skills within "simulated" fire scenarios related to fire ground activities. When applicable, skill sheets specifically describe when simulated fire conditions are permitted for certification testing.
3. There are critical performance items that must be followed for satisfactory performance. Examples of unsatisfactory performance can include:
  - a. Exceeding limitations: time, safety, and equipment limitations
  - b. Inadequate/insufficient personal protective equipment
  - c. Lack of skill accuracy and task completion as defined on the skill evaluation sheet
  - d. Poor judgment in skill performance (i.e.- wrong application of tool or equipment or safety violation)
  - e. Failure to appropriately apply basic fire fighting knowledge
  - f. Not competent in the specified task or skill steps
  - g. Outcome of the specified task is in doubt (i.e.- incorrectly performed or did not accomplish skill evaluation criteria)
  - h. Need for Evaluator intervention (i.e.- imminent health or safety risk to candidate or others)

## AFSC FIREFIGHTER II PRACTICAL SKILLS EVALUATION PACKET

---

- i. Failure to adhere to basic safety principles or guidelines

### **Artificialities of Training and Testing**

Training and testing for Firefighter II can only approximate the on-the-job activities of a firefighter. There are certain artificialities to training and testing that the candidate must be able to adapt to. Candidates must be aware that actual fire ground situations cannot be completely duplicated during final examination scenarios. For the best possible outcome during final skills examination, Firefighter II instructors must prepare the candidates to competently perform the skills listed in this packet throughout a training course.

### **Final Skills Evaluation**

The AFSC designated Certifying Officer (CO) conducts the final examination and has the overall test site authority. The CO is required to perform his or her duties as outlined in the [Certification Policy Manual](#).

For preparation of the final examination, the designated CO must communicate with the Test Site Coordinator to ensure an adequate test site location is available. The Test Site Coordinator is responsible for preparation of all test site equipment/materials and arranging designated evaluators for the date of the practical examination. The CO must verify that all required elements are adequate for testing and will approve all designated Evaluators. Designated Evaluators shall receive training appropriate for the test site and are required to complete an [Evaluator Code of Ethics Compliance](#) agreement before testing begins. The CO shall verify completion of the final examination packet.

### **Additional Notes:**

1. During the final practical examination, it is expected that an appropriate uniform, or full personal protective equipment (PPE), shall be worn unless otherwise indicated within the skill evaluation sheet.
2. During some scenarios, a candidate may be instructed to perform other Firefighter II tasks not directly related to the specific skill sheet evaluation being tested. The candidate shall perform all related skills correctly.
3. Some skills may include a time limit. An Evaluator may use a digital or analog watch/stopwatch for final skills evaluation. Prior to the start of the practical examination, the CO must inspect and approve all timing devices used during final skills evaluations.
4. Some skills require that equipment or documentation be used within the final skills examination. Unless otherwise indicated, it is permissible for the candidate to prepare or assemble the required equipment or paperwork at any time, provided that this does not interfere with the core skill, task, or evolution.
5. Candidates must be prepared to complete skills under a variety of conditions. Training and skills practice is often done during optimum conditions, but candidates must be prepared to adapt to changing conditions that can occur in actual fire ground situations. The Evaluator ultimately determines if the candidate has met the criteria specified on the skill(s) being evaluated.
6. For final examination, the performance of a skill, task, or evolution is not required to be done in the exact order of the steps (as outlined on the skill sheet), unless it is critical to a particular task. For example, a person must don turnout gear before donning an SCBA.
7. Some scenarios may involve skills that must be performed as a team. During final skills examinations Evaluators and candidates must be cognizant that each team member is evaluated separately to ensure individual criteria is met. An individual candidate may be required to repeat a task if they do not satisfy the skill sheet requirements if working as a member of a team.
8. Some skills may require that a candidate verbalizes information about a particular task or procedure. In such cases, any question(s) from the Evaluator to the candidate must be limited to those that satisfy the criteria listed on the skill sheet, and a question cannot exceed the scope the Firefighter II requirements.

# AFSC FIREFIGHTER II PRACTICAL SKILLS EVALUATION PACKET

---

## **Firefighter II Final Written and Practical Examinations**

Following is a brief outline of the reference materials and documents that are used for a Firefighter II final examination:

### **Firefighter II Written Material References**

- a. NFPA 1001 Standard for Professional Firefighter Qualifications, 2013 edition
- b. Text (any one of the following)
  - IFSTA, *Essentials of Firefighting and Fire Department Operations* 6<sup>th</sup> Edition
  - Jones and Bartlett, *Fundamentals of Fire Fighter Skills*, 3<sup>rd</sup> Edition

### **Firefighter II Practical Skills Evaluation References**

- a. NFPA 1001 Standard for Professional Firefighter Qualifications, 2013 edition
- b. Firefighter II Practical Skills Evaluation Sheets (*this packet*)

## **Final Examination Steps**

- a. \* [Firefighter II Training Record](#) review (*this must be completed and signed off by the **Training Program Manager/Training Officer, or designee**, prior to the date of the final examination and reviewed by the CO to ensure all elements are complete.*)
- b. Certifying Officer reviews and signs candidate Application for Certification
- c. Candidate completes the written examination administered by the CO
- d. Candidate completes the practical examination administered by the CO.
- e. Certifying Officer reviews completed Evaluator skill sheets and transfers information to the [Practical Examination Reporting Form](#) (PERF)
- f. Written exam, PERF, and signed application are forwarded to AFSC.
- g. AFSC Firefighter II certificate is issued upon successful completion of the written and practical exam (*within approximately 30 days of test date*)

*\*Note: The candidate's completed Training Record shall be filed in accordance with local fire department procedures.*

### PRACTICAL SKILL REQUIREMENTS

**FFII 1**

<b>STANDARD:</b> NFPA 1001: 6.1.2	<b>SKILL AREA:</b> Incident Management System
-----------------------------------	---

**TASK:** The candidate shall determine the need for command, organize and coordinate an incident management system until command is transferred, and function within an assigned role in an incident management system.

**PERFORMANCE OUTCOME:** The candidate shall be able to determine the need for command, organize, and coordinate an incident management system (IMS) until command is transferred, and be able to function within a commonly assigned IMS role.

**EQUIPMENT:** Appropriate Personal protective equipment and department communications equipment/portable radio.

**CONDITIONS:** Given an incident scenario and a series of questions, the candidate shall demonstrate the ability to:

No.	TASK STEPS	TEST		RETEST 1		RETEST 2	
		P	F	P	F	P	F
1.	Determine the need for command	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Implement an incident management system (IMS)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	Coordinate an incident management system until transferred	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4.	Transfer command to an incoming incident commander	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5.	Assume an IMS role by briefly describing the duties for the following:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	a) Division, Group, or Sector Supervisor	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### PRACTICAL SKILL REQUIREMENTS

FFII 4

<b>STANDARD:</b> NFPA 1001: 6.3.1	<b>SKILL AREA:</b> Foam Operations
<b>TASK:</b> Extinguish an ignitable liquid fire, so that the correct type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is created, a foam blanket is applied and maintained on the surface of the fuel, the fire is extinguished, re-ignition is prevented, team protection is maintained, and the hazard is faced until retreat to safe haven is reached.	
<b>PERFORMANCE OUTCOME:</b> The candidate shall be able to prepare a foam concentrate for use, assemble foam fire stream components, for a given ignitable liquid fuel and conditions.	
<b>EQUIPMENT:</b> Personal protective equipment, SCBA (CO to determine if on air), pump apparatus, attack line, foam proportioner/educter, foam compatible nozzle, foam concentrate ( <i>or simulated foam product</i> ), and water supply.	
<b>CONDITIONS:</b> Given a fire scenario*, the candidate shall demonstrate the ability to: <i>*this demonstration may be a simulation of a burning liquid, or liquid that has not yet been ignited</i>	

No.	TASK STEPS	TEST		RETEST 1		RETEST 2	
		P	F	P	F	P	F
1.	Select the appropriate foam concentrate and prepare foam concentrate for the given fuel and conditions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Set up apparatus and assemble foam stream components	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	Charge hoseline and safely approach the fire or fuel as a team	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Certifying Officer shall select one of the following tasks for final certification examination:</b>							
	a. <input type="checkbox"/> <b>Roll-On Method:</b> Use method to apply a foam blanket						
	b. <input type="checkbox"/> <b>Bank-Down Method:</b> Use method to apply a foam blanket						
	c. <input type="checkbox"/> <b>Rain-Down Method:</b> Use method to apply a foam blanket						
4.	Apply properly proportioned foam to the surface of the fuel and create and maintain a foam blanket	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5.	Extinguish the fire and prevent re-ignition	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6.	Maintain team protection with a foam stream	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7.	Face the hazard until the team has completely retreated to a safe haven	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### PRACTICAL SKILL REQUIREMENTS

**FFII 5a**

<b>STANDARD:</b> NFPA 1001: 6.3.2	<b>SKILL AREA:</b> Fire Attack
<p><b>TASK:</b> Coordinate an interior attack line for an interior structure fire, so that crew integrity is established; attack techniques are selected for the given level of the fire (e.g., attic, grade level, upper levels, or basement); attack techniques are communicated to the attack teams; constant team coordination is maintained; fire growth and development is continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack teams; and incident command is apprised of changing conditions.</p>	
<p><b>PERFORMANCE OUTCOME:</b> The candidate shall demonstrate the ability to assemble a team, choose attack techniques for various levels of a fire, evaluate and forecast a fire's growth and development, select tools for forcible entry, incorporate search and rescue procedures and ventilation procedures in the completion of the attack team efforts, and determine developing hazardous building or fire conditions.</p>	
<p><b>EQUIPMENT:</b> Personal protective equipment, SCBA (on air), hand tools, attack line, pump apparatus, portable radio, ground ladders, ventilation equipment (Portable/mounted A/C power supply with cords, Positive Pressure Fan/Smoke Ejector, Power plant), and vertical ventilation material (i.e. roof prop, plywood, etc.).</p>	
<p><b>CONDITIONS:</b> Given a grade level simulated fire scenario, attack lines, personnel, and tools, the candidate shall demonstrate the ability to:</p>	

No.	TASK STEPS	TEST		RETEST 1		RETEST 2	
		P	F	P	F	P	F
	<b>Certifying Officer shall select one the following interior fire attack scenario for final certification examination:</b>						
	a. <input type="checkbox"/> Below grade fire ( <i>basement/cellar</i> )						
	b. <input type="checkbox"/> Grade level fire						
	c. <input type="checkbox"/> Above grade level fire ( <i>second story or above</i> )						
	d. <input type="checkbox"/> Attic fire						
1.	Assemble a team for fire attack	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Conduct a size up and communicate an action plan to team	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	Select appropriate tools and equipment for forcible entry	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### PRACTICAL SKILL REQUIREMENTS

**FFII 6a**

<b>STANDARD:</b> NFPA 1001: 6.3.3	<b>SKILL AREA:</b> Gas Cylinder Fire
<b>TASK:</b> Control a flammable gas cylinder fire, so that crew integrity is maintained, contents are identified, safe havens are identified prior to advancing, open valves are closed, flames are not extinguished unless the leaking gas is eliminated, the cylinder is cooled, cylinder integrity is evaluated, hazardous conditions are recognized and acted upon, and the cylinder is faced during approach and retreat.	
<b>PERFORMANCE OUTCOME:</b> The candidate shall be able to control a flammable gas cylinder fire by advancing a hose line to a point where control valves can be operated.	
<b>EQUIPMENT:</b> Personal protective equipment, SCBA (on air), attack line, pump apparatus, water supply, portable radios, gas cylinder training prop with valve.	
<b>CONDITIONS:</b> Given a simulated flammable gas cylinder fire scenario, an attack line, and tools, the candidate shall demonstrate the ability to:	

No.	TASK STEPS	TEST		RETEST 1		RETEST 2	
		P	F	P	F	P	F
1.	Identify container contents and safe havens prior to advancing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Advance toward the fire so that a smooth, controlled, and safe approach is made and team integrity maintained	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	As directed, operate the nozzle and adjust patterns for the following techniques: <input type="checkbox"/> Straight stream for reach and initial cooling. <input type="checkbox"/> Narrow fog stream to cool the cylinder <input type="checkbox"/> Wide fog stream to shield personnel from flames and to push flames away from control valves	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4.	Cite the common indicators used for assessing cylinder integrity and monitoring for changing conditions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5.	Select appropriate procedures for when changes in conditions occur	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6.	Advance and position fire streams in a manner that provides safe access for personnel to operate control valves	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7.	Apply the fire stream without extinguishing the flames unless leaking gas has been stopped	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8.	Operate control valves so that gas flow is stopped	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9.	While facing the hazard, retreat in a smooth and controlled manner until the entire team reaches a safe haven	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### PRACTICAL SKILL REQUIREMENTS

FFII 7

<b>STANDARD:</b> NFPA 1001: 6.3.4	<b>SKILL AREA:</b> Protect Evidence
-----------------------------------	-------------------------------------

**TASK:** Protect evidence of fire cause and origin, so that the evidence is noted and protected from further disturbance until investigators can arrive on the scene.

**PERFORMANCE OUTCOME:** The candidate shall demonstrate the ability to locate the fire's origin area, recognize possible causes, and protect the evidence.

**EQUIPMENT:** Personal protective equipment, SCBA (CO to determine use of air), fire service/evidence tape, portable radio, notebook, flashlight, overhaul tools.

**CONDITIONS:** Given a fire cause and origin scenario, the candidate shall demonstrate the ability to:

No.	TASK STEPS	TEST		RETEST 1		RETEST 2	
		P	F	P	F	P	F
1.	Identify the indicators commonly used to locate a fire's point of origin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.	Recognize the indicators commonly used to identify possible sources of fire cause ( <i>burn patterns, heavy charring, etc.</i> )	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.	Recognize possible signs of arson ( <i>such as trailers, accelerants, incendiary devices, etc.</i> )	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4.	Note evidence and protect from being destroyed or improperly handled during salvage and overhaul operations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5.	Preserve evidence by securing the immediate area	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6.	Secure the scene in accordance with local agency procedures until investigators can arrive on the scene	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## **Instruction Sheet for Evaluation Sheet FFII AK Life Safety Presentation Supplement**

The Alaska Fire Standards Council considers fire and life safety education components to be a critical skill for firefighter personnel. This requirement is specified in NFPA 1001 2013 chapter 6, and must be completed as part of the requirement for Firefighter II certification.

Alaska Firefighter II certification testing for this skill is not required **if** this skill was completed during a Firefighter I certification test within three years of the Firefighter II test date.

Complete the job performance skill as detailed below:

Present a prepared program to an identified audience, given a lesson plan, time allotment, and instructional materials. Please reference the Alaska fire statistics information online (<http://www.dps.alaska.gov/Fire/alaskafirestatistics.aspx>) to assist in identifying a target topic for your community. Suggested topics include:

- |   |  |
|---|--|
| <b>a. Cooking Safety</b>                                  | <b>f. Heating Safety</b>                 |
| <b>b. Stop, drop and roll</b>                             | <b>g. Crawl low in smoke</b>             |
| <b>c. Escape planning</b>                                 | <b>h. Alerting others in emergencies</b> |
| <b>d. Calling the fire department</b>                     | <b>i. Other fire prevention lesson</b>   |
| <b>e. Smoke alarm placement, testing, and maintenance</b> |  |

**DIRECTIONS:** The objective for this skill is for the firefighter to present a basic fire life safety education class using prepared material. The intended audience is the general public and community members, and this lesson may be taught to a wide variety of audiences. Possible audiences could include: school children, adults, church groups, public service groups or other members of the general public, day care centers, or nursing homes.

Lesson plans for this presentation can be found in the NFPA Learn Not To Burn Curriculum and the Kids Safe Fire Safety Program. Many individual fire department fire prevention programs also have lesson plans that can be used.

After teaching this lesson, FFII practical skill sheet 6.5.2 must be completed for receive credit for the activity.

The completed skill sheet, signed by the Lead Instructor or Chief Officer, will document the necessary information for a candidate to receive credit for the activity.

<a href="#"><u>FFII 11</u></a>	6.5.2	Fire Safety Presentation	<b>Mandatory</b>

*\*6.5.2 is evaluated locally and the practical skill check-off is completed by the Lead Instructor or a Chief Officer prior to the certification examination date. \*\**

*\*\*Candidate is not required to repeat this skill if it was completed for the AFSC FFI certification test within 3 years of FFII test date*

## AFSC FIREFIGHTER II PRACTICAL SKILLS EVALUATION PACKET

---

### NFPA 1001 2013 Edition Changes to Skill Sheets

#### Specific Skill Sheet Changes from 2008 to 2013 Editions:

- Reformatted sheet numbering for consistency with AFSC format
- Hyperlinked [Specific Job Performance Requirement](#) with individual skill sheets. Individuals sheet number hyperlinked to jpr chart.
- Deleted “*Prevention*” and added “*Fire and Life Safety Initiatives*” to section 6.5, as per NFPA 1001 jpr revisions
- Deleted “*a private dwelling*” and added “*an occupied structure*” to section 6.5.1, as per NFPA 1001 jpr revisions
- Added a separate equipment and facility requirement list for use in course planning process.
