

# Alaska Scientific Crime Detection Laboratory

## Change in Instrument Status Form

Issued: 12/15/2017  
Effective: 12/15/2017

Version: CIISF 2017 R0  
Status: Active

Date: 09-17-2021 Instrument Serial Number: 100410

Instrument Location: AST Aniak post

Supervisor Name and Agency: Tatiana Lee - ASCDL

**Describe the Status Change or Issue with the Instrument:**

AST Aniak's DMT did not populate a VOC on 09-05-2021. Sgt. Eugene Fowler from AST St. Mary's also handles the Datamaster at AST Aniak; however, he is out for another month. I was advised by Trooper Mayfield from AST St. Mary's that Trooper Wiles and Trooper Harris were currently working at AST Aniak. I called and spoke to Trooper Anthony Wiles who confirmed that their instrument still has the expired tank installed. There is currently no Breath Test Operators and Supervisors at AST Aniak. Trooper Wiles' certification expired on 12-31-2019, so I walked him through performing a change of tank. A VOC was initiated and completed. I also advised him to restart the datamaster after the VOC has been completed.

If instrument was placed in service or removed from service, fill out the appropriate sections below.
