

Alaska Scientific Crime Detection Laboratory
Change in Instrument Status Form

Version: 6.0

Effective: 1/17/2024

Date: ~~3/7/2022~~ **2024.03.07**

Instrument #: 100358

COB 2024.03.18

Instrument Location: AST/Mat-Su West

Supervisor Name and Agency: Trooper Barela

Describe the Status Change or Issue with the Instrument:

I contacted Trooper Barela regarding an increase in RFI status messages at the AST/Mat-Su West Post.

If instrument was placed in service or removed from service, fill out the appropriate sections below.

In Service Date/Time: N/A

Out of Service Date/Time: N/A

For Use by SCDL

Subject: RE: AST/MSW - RFI Status Messages

I know your DMT location is in the squad room so it's easy for officers to walk through the area. A friendly reminder to turn off radios can alleviate the need to retest subjects. Thanks for getting back with me.

I asked Olsen about it. He believes his radio was still on. I've tried to recreate the bodycams interfering with the instrument and out of the 5/6 times I couldn't. I've talked to the troopers in the past about this, they think it's the bodyworn cameras causing it but I believe it's forgetting to turn off radios or other troopers walking through with radios on.

Mariano,

This last two months there have been 5/20 RFIs during subject testing. Any thoughts on if this is a training issue with officers (Morris X2, Phillips, Olson X 2) or an environmental issue? Roughly 10% status messages during subject testing can be expected and this is 25%.
