# Uniform Crime Reporting

## Introduction to the Program

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort by federal, state, city, county, and tribal law enforcement agencies to report data on crimes reported in their jurisdiction. The International Association of Chiefs of Police (IACP) developed this methodology for crime reporting in response to the need for national crime statistics, and in 1930, the Federal Bureau of Investigation (FBI) assumed administrative responsibility for the UCR Program. The data provides the information necessary to gain a basic understanding of the nature and scope of the nation's crime problem.

The submission of data regarding crimes committed within the agency's jurisdiction is required by Alaska Statute (AS) 12.62.130. Since June of 1982, the Department of Public Safety (DPS) has administered the UCR Program for the State of Alaska. The Criminal Records and Identification Bureau, located within the Division of Statewide Services, is responsible for collecting, tabulating, reporting, and publishing the UCR data provided by state and local law enforcement agencies. The submitting agencies retain responsibility for the accuracy of their data, and DPS conducts biennial audits with each agency to ensure data is collected and reported in accordance with the national UCR program guidelines.

Under the Summary Reporting System (SRS), the FBI identified ten offense categories selected because of their seriousness and frequency, as crime index offenses. These ten offenses are referred to as Part I offenses by the FBI. The UCR Program collects and reports all Part I offenses as they become known to law enforcement, whether or not they involve arrests. Offenses which do not fit into the Part I offense classification are considered Part II offenses. The UCR Program only collects arrest data for Part II offenses in addition to the Part I offense and arrest data.

Effective January 1, 2021, the FBI sunset the SRS data collection program and required agencies to report crime data using the National Incident Reporting System (NIBRS) format. Because all law enforcement agencies in Alaska have not transitioned to the NIBRS format, the statewide UCR data for 2025 will continue to be reported in the SRS format using the established FBI calculations to convert NIBRS data back to the SRS format. A separate NIBRS publication with partial statewide crime data will be released at a later date.

Monthly crime statistics are forwarded to the FBI for inclusion in their Crime Data Explorer application and various publications, and they are used to compile the annual Crime in Alaska publication. Because all agencies in Alaska have not transitioned to the NIBRS format, FBI datasets for Alaska for 2021-2025 may be incomplete.

# Alaska's Crime Clock in 2025<sup>1</sup>

<sup>1</sup> The Crime Clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the Crime Index Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

# Alaska Crime Rate & Index

## Definition

The crime index is composed of selected offenses used to gauge fluctuations in the overall volume and rate of crime reported to law enforcement. The offenses included are violent crimes of murder and non-negligent manslaughter, rape, robbery, aggravated assault, and property crimes of burglary, larceny/theft, motor vehicle theft, and arson.

Crime in Alaska defines all violent crime as involving force or threat of force, whereas the objective of property crime is the taking of money or property without force or threat of force against the victim.

## Summary

The calculations represented in Crime in Alaska are made utilizing the index offense totals for the current and previous year as well as population estimates provided by the FBI. The overall violent crime and property crime indices increased in 2025. The violent crime and property crime rates, which relates the incidence of crime to population, experienced similar increases.

With the exception of murder and rape offenses, all Part I crime categories had more offenses reported in 2025 than in 2024. All facts are important to consider when reviewing the fluctuations in the crime index and rate variances between 2024 and 2025. Caution should be exercised when comparing data from year to year and making conclusions.

# Murder & Non-Negligent Manslaughter

## Definition

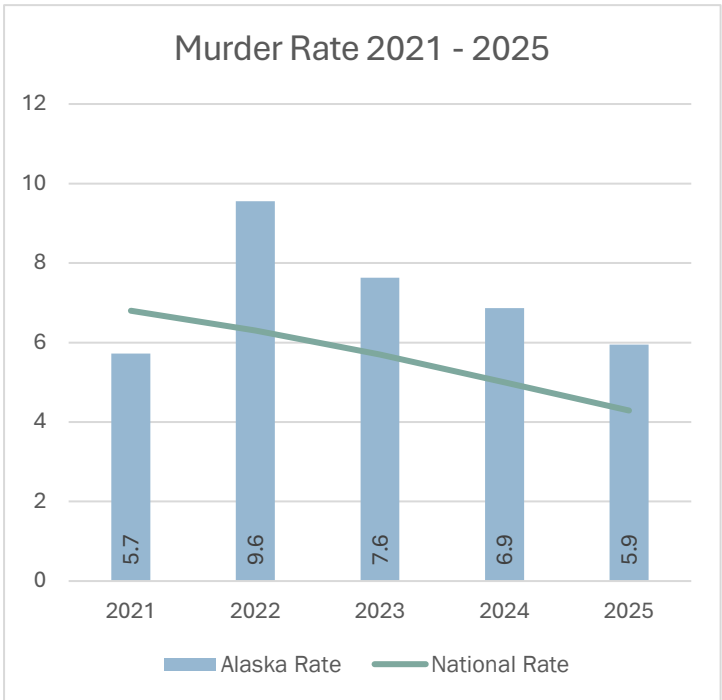

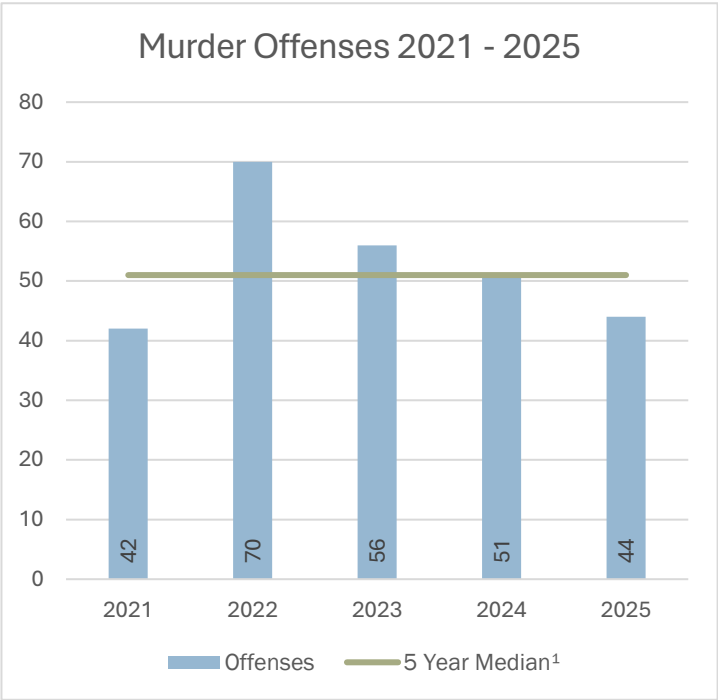

The National Uniform Crime Reporting (UCR) Program defines murder and non-negligent manslaughter as the willful (nonnegligent) killing of one human being by another. The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Attempts to murder or assaults to murder are classified as aggravated assault.

Rape

Definition

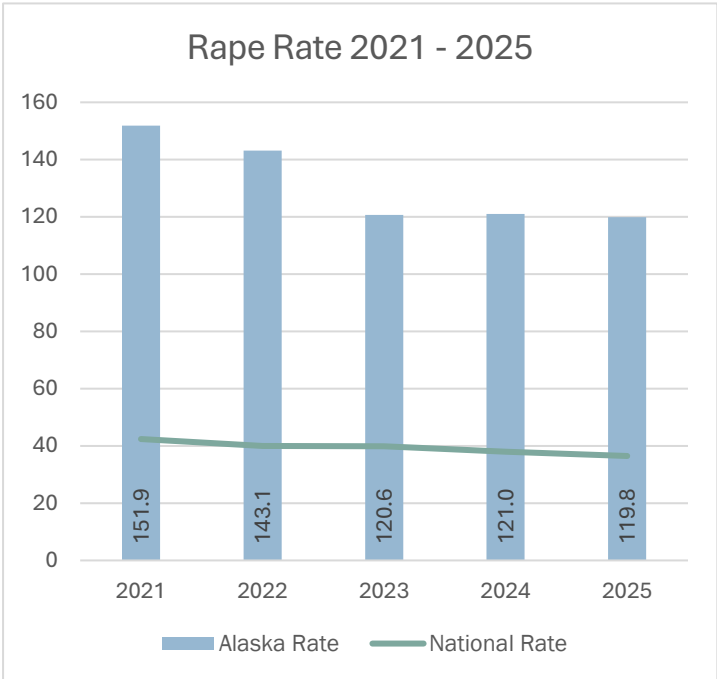

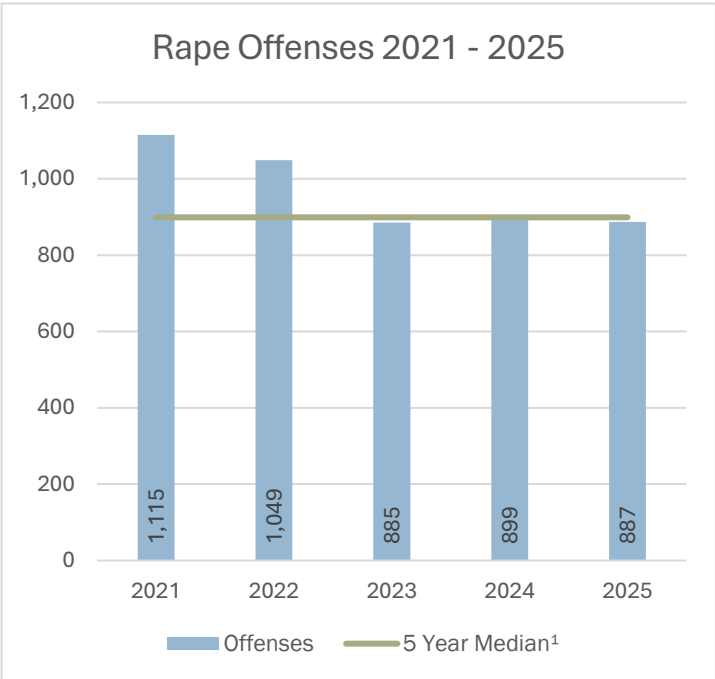

The National Uniform Crime Reporting (UCR) Program defines rape as penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. This definition includes either gender of victim or offender. This definition also includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to the influence of drugs or alcohol) or because of age. Attempts or assaults to commit rape are also included in the statistics presented here; however, statutory rape and incest are excluded.

Summary

A total of 887 rapes were reported in 2025; 55 attempted rapes were reported and are included in this total. 6.2% of reported rapes were attempted offenses, and 93.2% of reported rapes were completed offenses. This represents 16.4% of all violent crime, and 4.5% of all crime reported in Alaska. The number of reported rapes decreased 1.3%, and the rate of rape per 100,000 persons decreased 1.0% from 2024 to 2025.

# Rape Offenses

## Offenses by Month

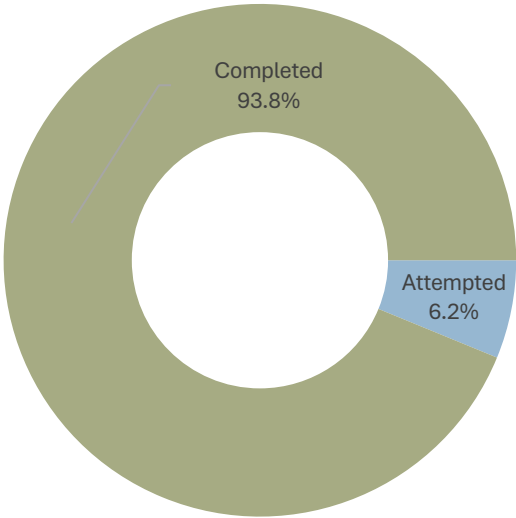

Since 2016, July has averaged the highest number of reported rape offenses at 100.7 per month. In 2025, the highest number of reported rapes occurred in July with 99 reported offenses.

The National Uniform Crime Reporting Program requires if there is a separation of time and place between the commission of several crimes, that each crime be reported separately.<sup>1</sup> Sexual assaults spanning several time periods will result in numerous counts of rape offenses being reported for a single victim.

<sup>1</sup> A note on arrests: The reporting agencies provide a record of the total number of persons arrested, cited, or summoned (served) for criminal acts in all Part I and Part II crimes. In addition, the agencies furnish basic data concerning the personal characteristics-age, sex, race, and ethnicity-of persons arrested in a particular month. The UCR program collects data on the number of persons arrested, not the number of charges lodged. For example, a person may be arrested on several charges at one time; in this situation, the agency only scores one arrest under the most severe offense category as determined by the agency.

Robbery

Definition

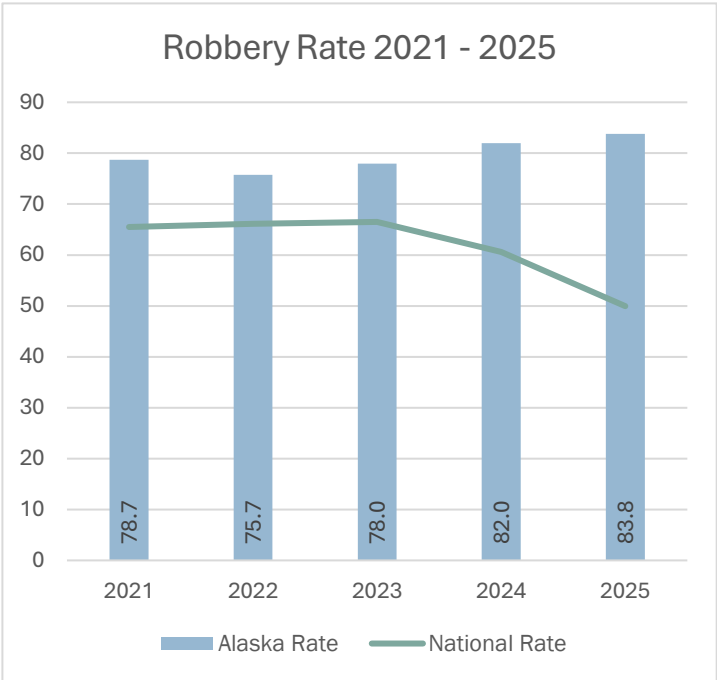

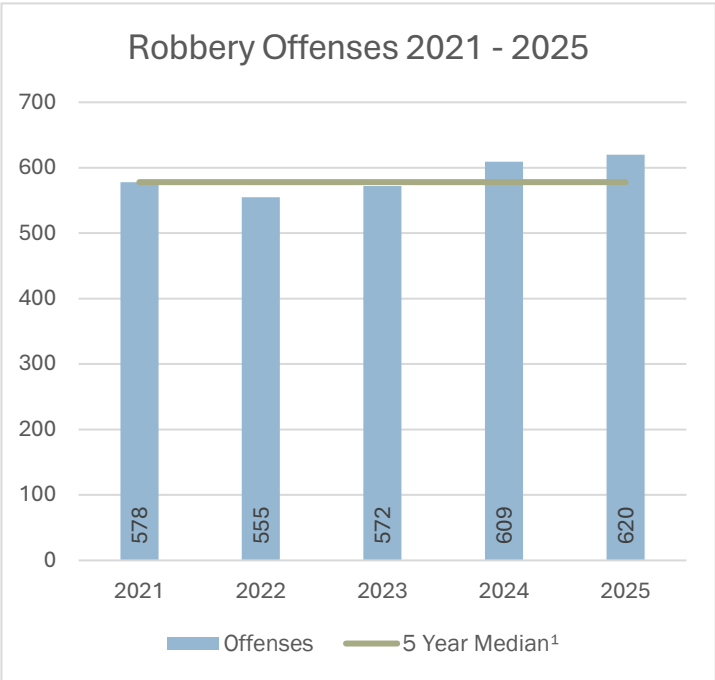

The National Uniform Crime Reporting (UCR) Program defines robbery as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery is a type of theft committed in the presence of the victim. The victim is directly confronted by the offender and is threatened with force or is put in fear that force will be used. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force. While the FBI generally classifies robbery as a property crime, due to the violent nature of this offense it is included in the violent crime calculations.

Summary

A total of 620 robberies were reported in 2025. Attempted robberies are included in this total. Robbery represents 11.5% of all violent crime, and 3.2% of all crime reported in Alaska. The number of reported robberies increased 1.8%, and the rate of robberies per 100,000 persons increased 2.2% from 2024 to 2025. Of the reported robberies, the majority (55.2%) involved the use of Strong-Arm (Hands, Fists, Feet, etc.) weapon. Arrest data shows 76.5% of the persons arrested for robbery were male, and 92.8% were adults. The total property loss associated with robbery offenses reported in 2025 was \$439,438, down from \$516,398 in 2024.

# Aggravated Assault

## Definition

The National Uniform Crime Reporting (UCR) Program defines aggravated assault as an unlawful attack by one person upon another to inflict severe or aggravated bodily injury. The UCR Program further specifies this type of assault is usually accompanied by the use of a weapon or by other means likely to produce death or great bodily harm. Attempted aggravated assault that involves the display of, or threat to use, a gun, knife, or other dangerous weapon is included in this crime category because serious personal injury could likely result if the assault were completed. Attempts to murder are also included in this offense category.

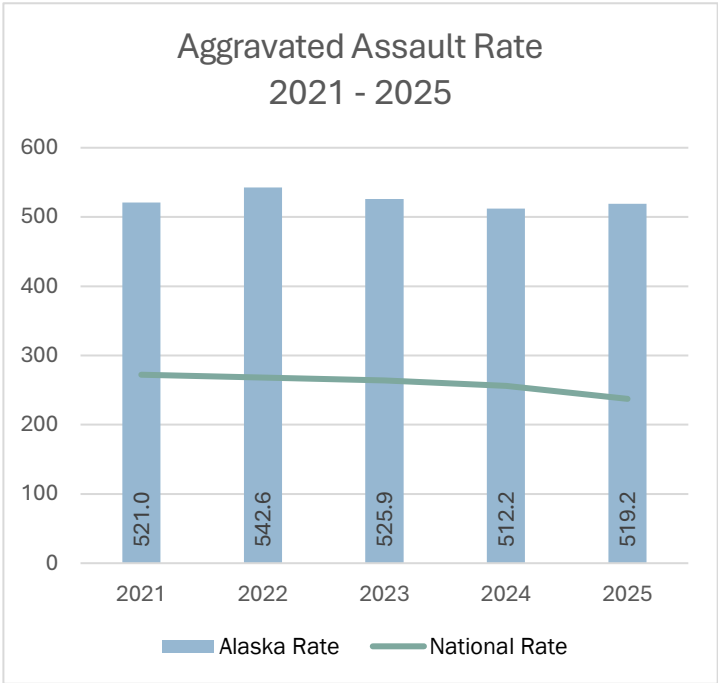

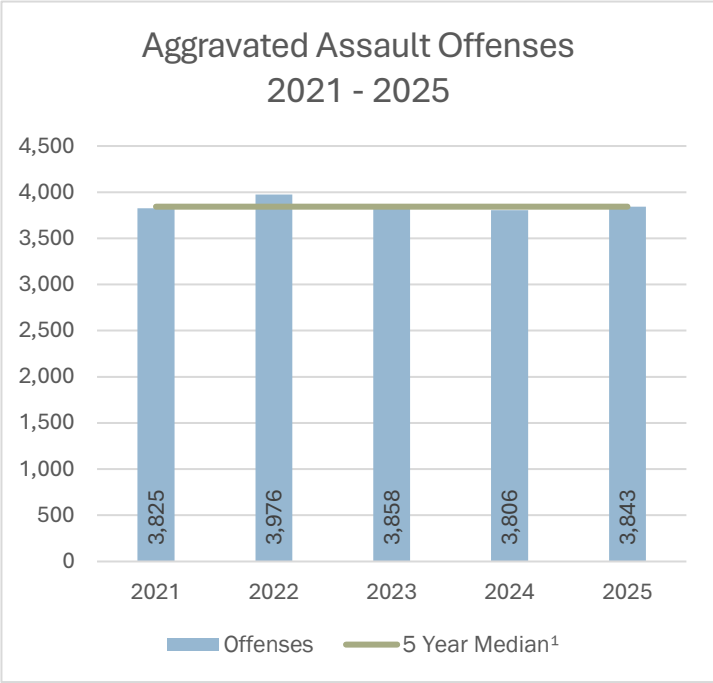

## Summary

A total of 3,843 aggravated assaults were reported in 2025. This represents 71.2% of all violent crime and 19.7% of all crime reported in Alaska. The number of reported assaults increased 1.0% and the rate of assaults per 100,000 persons increased 1.4% from 2024 to 2025.

While not included in crime calculations, there were 9,857 offenses of simple assault reported in 2025, which is a 4.7% increase from 2024. Simple assault includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim does not sustain serious or aggravated injuries.

# Burglary

## Definition

The Uniform Crime Reporting (UCR) Program defines burglary as the unlawful entry of a structure to commit a felony or theft. To classify an offense as a burglary, the use of force to gain entry need not have occurred. The UCR Program has three subclassifications for burglary: forcible entry, unlawful entry where no force is used, and attempted forcible entry. The UCR definition of “structure” includes, but is not limited to, an apartment, barn, house trailer or houseboat (when used as a permanent dwelling), office, stable, vessel (e.g., ship), or a warehouse. Tents, tent trailers, motor homes, house trailers, or other mobile units being used for recreational purposes are not considered structures.

<sup>1</sup> A note on arrests: The reporting agencies provide a record of the total number of persons arrested, cited, or summoned (served) for criminal acts in all Part I and Part II crimes. In addition, the agencies furnish basic data concerning the personal characteristics-age, sex, race, and ethnicity-of persons arrested in a particular month. The UCR program collects data on the number of persons arrested, not the number of charges lodged. For example, a person may be arrested on several charges at one time; in this situation, the agency only scores one arrest under the most severe offense category as determined by the agency.

# Larceny Theft

## Definition

The Uniform Crime Reporting (UCR) Program defines larceny theft as the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. All thefts are included in this category with one exception: motor vehicle theft. Because of the high volume of motor vehicle thefts, this crime has its own offense category. Offenses of embezzlement, fraud, counterfeiting, obtaining money by false pretenses, larceny by check, larceny by bailee, or check fraud are not included in the larceny theft category. Each of these crimes falls within one of the Part II offense categories and is only counted if an arrest is made.

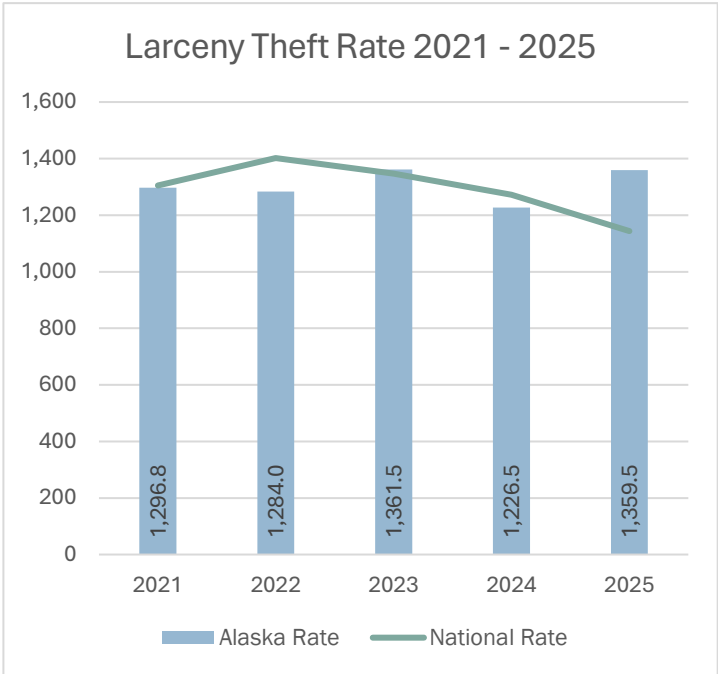

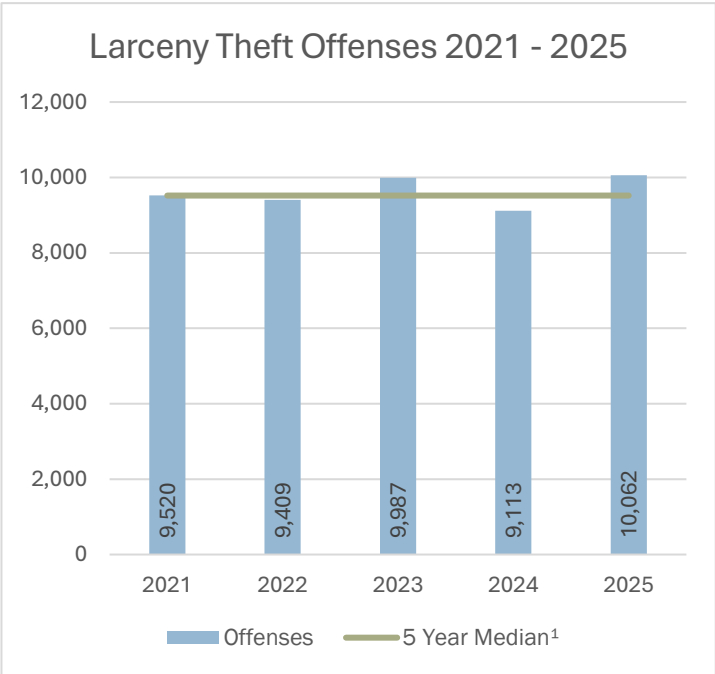

## Summary

A total of 10,062 larceny thefts were reported in 2025. This represents 71.2% of all property crime, and 51.5% of all crime reported in Alaska. The number of reported larceny thefts increased 10.4%, and the rate of larceny thefts per 100,000 persons increased 10.8% from 2024 to 2025. Arrest data shows 64.2% of the persons arrested for larceny theft were male, and 94.8% were adults.

Both the number of reported larceny thefts and the property loss associated with these offenses increased from 2024. The total property loss associated with larceny theft in 2025 was over \$12.2 million, up from \$10.2 million in 2024.

Examples of motor vehicles include sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles. Motor vehicle theft does not include farm equipment, bulldozers, airplanes, construction equipment or watercraft such as motorboats, sailboats, houseboats, or jet skis. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.

Arson

Definition

The Uniform Crime Reporting Program defines arson as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Contributing agencies report arson as fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in this offense, but fires of suspicious or unknown origins are not. Agencies classify one offense for each distinct arson operation originating within the reporting jurisdiction. If arson is perpetrated in one locale and spreads to another, the jurisdiction in which the fire originated reports it.

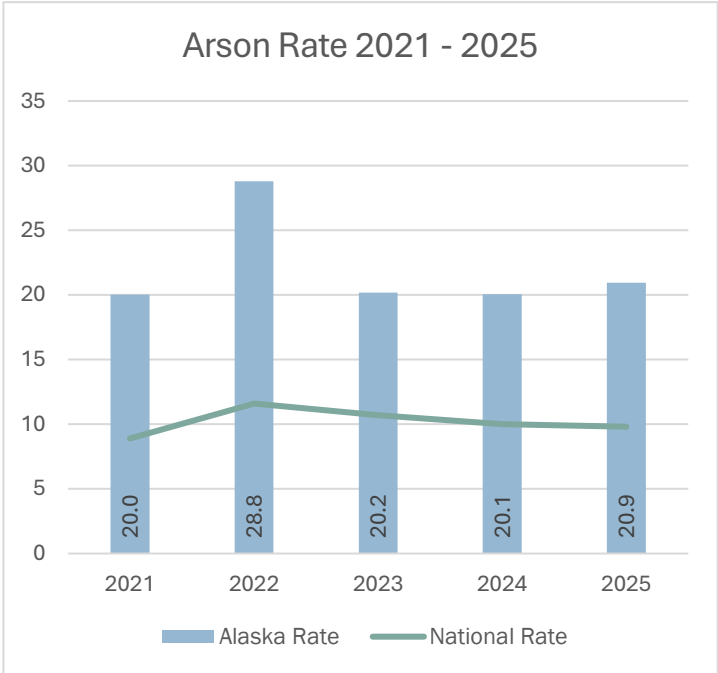

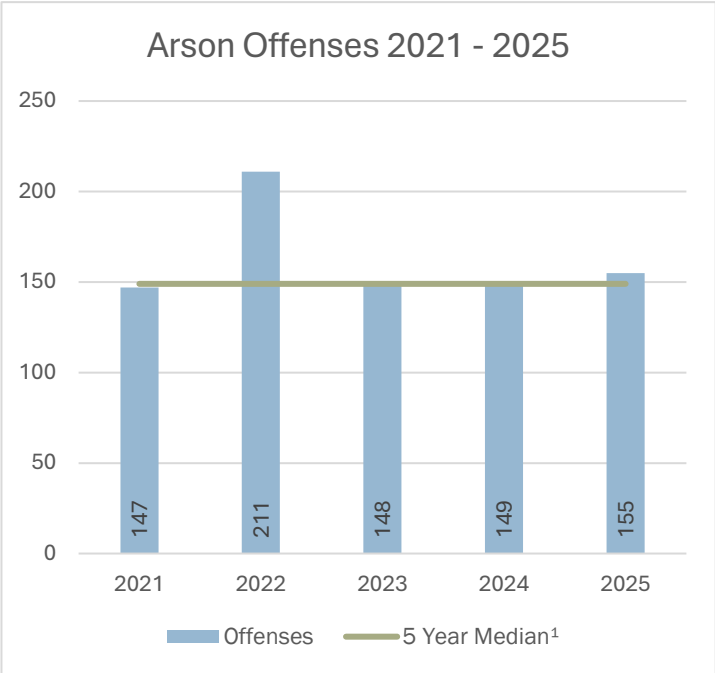

Summary

A total of 155 arsons were reported in 2025. This represents 1.1% of all property crime, and 0.8% of all crime reported in Alaska. The number of reported arsons increased 4.0% and the rate of arsons per 100,000 persons increased 4.4% from 2024 to 2025. Arrest data shows 64.3% of the persons arrested for arson were male, and 71.4% were adults.

The total property loss associated with arson in 2025 was just under \$11.9 million. The total property loss increased 169.5% from 2024 to 2025.

<sup>1</sup> A note on arrests: The reporting agencies provide a record of the total number of persons arrested, cited, or summoned (served) for criminal acts in all Part I and Part II crimes. In addition, the agencies furnish basic data concerning the personal characteristics-age, sex, race, and ethnicity-of persons arrested in a particular month. The UCR program collects data on the number of persons arrested, not the number of charges lodged. For example, a person may be arrested on several charges at one time; in this situation, the agency only scores one arrest under the most severe offense category as determined by the agency.

# Appendix: Offenses in Uniform Crime Reporting

The Uniform Crime Reporting (UCR) Program divides offenses into two groups, Part I and Part II crimes (offenses). Each month, participating law enforcement agencies submit information on the number of Part I offenses known to them; those offenses cleared by arrest or exceptional means; and the age, sex, and race of persons arrested for each of the offenses. Contributors provide only arrest data for Part II offenses.

The UCR Program collects data about Part I offenses in order to measure the level and scope of crime occurring throughout the Nation. The Program's founders chose these offenses because they are serious crimes, they occur with regularity in all areas of the country, and they are likely to be reported to police. Part I and Part II offenses are defined below.

## Part I offenses:

**Criminal Homicide:** a) Murder and non-negligent manslaughter: the willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, and accidental deaths are excluded. The Program classifies justifiable homicides separately and limits the definition to: (1) the killing of a felon by a law enforcement officer in the line of duty; or (2) the killing of a felon, during the commission of a felony, by a private citizen. b) Manslaughter by negligence: the killing of another person through gross negligence. Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category Manslaughter by Negligence.

**Rape (2013):** Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ or another person, without consent of the victim. This definition includes either gender of victim or offender. This definition also includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to the influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of the victim to demonstrate lack of consent. Statutory offenses (no force used – victim under age of consent) are excluded.

**Robbery:** The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault:** An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple

assaults are excluded.

**Burglary (breaking or entering):** The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

**Larceny-Theft (except motor vehicle theft):** The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting, pocket-picking, or the stealing of any property or article that is not taken by force and violence or by fraud.
